Copy of Initial Scope of Services enclosed: ○ yes ◉ no

Major requirements of this project?

Design and Construction for replacement of the existing 1773 ft long A. Max Brewer Bridge (Bridge No. 704049) and 140 ft long south relief bridge (Bridge No. 704125) with new bridges approximately 2715 ft and 160 ft long, respectively. The existing A. Max Brewer Bridge, a low-level swing-span bridge, will be replaced with a Category 2 high-level fixed-span bridge. Limits of the project along SR 406 are from the east side of the US 1/SR 406 intersection to approximately 1650 ft east of the east end of the existing A. Max Brewer Bridge.

Shortlist Consideration Factors:

1. Past performance grades on Department projects.
2. Volume of work previously awarded within past five years.
3. Workload as evidenced by residual fees on active projects.
4. Distribution of work among competing consultants and utilization of new consultants.
5. Balancing needs of the project to the abilities of the consultants.
6. Consultant's working relationship with Department on previous projects.
7. General information (number of professionals, consultants total area of prequalification, location, subconsultant relationships, etc.)
8. Utilization of DBE and MBE consultants.
