This map was compiled from U.S. Geological Survey quadrangle maps,aerial photography flown in Feb., 1995, General Land Office plats, road inventory surveys May, 1998, and other map data.

This map was compiled using interactive computer graphic techniques.

This map was prepared on the transverse Mercator projection, NAD 83, West Zone, Florida system of plane coordinates.

The railroad station symbol as shown on this map does not necessarily denote the presence of a depot or like facility. It may be only a point designated for the receipt or delivery of freight, such as a platform or siding.

Local road alignments in Delimited Areas and Residential Areas Under Development are not indicated.

No attempt has been made to show all drainage canals and ditches.

City populations are taken from the U.S. Census for 1990.

In 1990, the population of Charlotte County was 110,975. There are 705 square miles in the county.

No claims made for the basic cartographic source material taken from a work or works of the United States Government.

Maps of this series are in the public domain. The maps are compiled and published using public tax monies and are copyrighted to prevent photocopy and resale for profit.
