Subject: CPR Opportunity- Consultant Marketing Meetings

Attached is a summary document of district practices concerning consultant marketing visits. Please review your district's information for accuracy, and send your corrections to Carla Perry, Procurement Office by October 12th.

The Secretary and I are in agreement that Project Managers should make themselves available for consultant marketing visits prior to project advertisement, for at least 30 minutes per consultant firm. No firms should be turned away. Please share this with your staff. This will be formalized as a statewide policy. Providing firms an opportunity to engage with the PM is beneficial to both the consultant and the Department. The more consultants understand about our project requirements, the better the proposals will be.

We are also soliciting consultant input on this issue, via an on-line survey. FICE is coordinating. Here is the link to the on-line survey for your information:
