SUBJECT: QUALIFIED PRODUCTS FOR MATERIALS FOR CONCRETE REPAIR

Due to the limited number of qualified products approved for Materials for Concrete Repair, the following policy is implemented immediately:

Any material for concrete repair currently approved for use under Section 930 for contracts let prior to July 2008 may be used on contracts let after July 2008 and for a period of six months from the date of this bulletin.

In order to allow the use of these materials on contracts let after July 2008, this memorandum serves as blanket approval to process a \$0.00 change order and should be attached to the Work Order or Supplemental Agreement for this change.

If you have any questions, please contact Mike Bergin in the State Materials Office at (352) 955-6666.
