

Making Crosswalks Safer for Pedestrians

Application of a Multidisciplinary Approach to Improve Pedestrian Safety at Crosswalks in St. Petersburg, Florida

Prepared for:

Florida Department of Transportation
State Safety Office
605 Suwannee Street
Tallahassee, FL 32399-0450
(850) 488-5455

Prepared By:

Center for Urban Transportation Research
College of Engineering
University of South Florida
4202 E. Fowler Avenue, CUT 100
Tampa, FL 33620-5350
(813) 974-3120
Suncom 574-3120
Fax (813) 974-5168

July 2000

Acknowledgements

The project team consisted of:

Patricia A. Turner, Center for Urban Transportation Research
Anthony J. Ferraro, Center for Urban Transportation Research
Bridget McGovern, Center for Urban Transportation Research
Louis Malenfont, Ph.D., Centre for Education and Research in Safety
Ronald Van Houten, Ph.D., Centre for Education and Research in Safety

The team would like to thank the following individuals for their assistance during the project:

David Ficher, Mayor, City of St. Petersburg
Assistant Chief Richard Stelljes, Deputy Police Chief, City of St. Petersburg Department of Transportation and Parking Services
Sgt. John Gardner, City of St. Petersburg Police Department
Lt. Randy Bratton, City of St. Petersburg Police Department
Lt. Ron Hartz, City of St. Petersburg Police Department
Angelo Rao, Director of Traffic Engineering, City of St. Petersburg Department of Transportation and Parking Services
Ray R. McKenzie, Neighborhood Transportation Manager, City of St. Petersburg Department of Transportation and Parking Services
Peter Shaw, Jon Stephenson, and Jan Thomas, City of St. Petersburg Department of Transportation and Parking Services
Linda Kinsey, City of St. Petersburg Department of Marketing/Public Information
Julie Hall, Channel 35, City of St. Petersburg Department of Marketing/Public Information
Peggy Johns, Supervisor, Health Education, School Board of Pinellas County
Brian Smith, Director, Pinellas County Metropolitan Planning Organization
Daniel Burden, Executive Director, Walkable Communities Inc.
Theo Petritsch, State Safety Office, Florida Department of Transportation
Pat Pieratte, State Safety Office, Florida Department of Transportation
John Royse, Local Pedestrian Safety Advocate

The team would also like to thank the following agencies and organizations for their assistance:

School Board of Pinellas County
City of St. Petersburg
City of St. Petersburg Police Department
City of St. Petersburg Department of Transportation and Parking Services
City of St. Petersburg Department of Marketing/Public Information
Channel 35
Pinellas County Metropolitan Planning Organization
Pinellas County Community Traffic Safety Team
Council of Neighborhood Associations (CONA)
Pinellas County Sheriff's Office
WMNI 1380, Radio Disney

The following CUTR staff assisted with the completion of this report:

Martin Catala, GIS map design and production
Brandi Bartolomeo, GIS map design and production
Penny Booth, field data collection
Patricia Baptiste, cover design

This report was prepared in cooperation with the State of Florida Department of Transportation Safety Office.

Table of Contents

I. INTRODUCTION	1
Research Background	1
Research Objectives	3
Research Approach	4
Report Organization.....	4
II. COMMUNITY ASSESSMENT	7
Overview	7
Assessment Process	7
Step 1. Analyze Pedestrian Crash Data	8
Step 2. Identify Community “Walkability” Issues	13
Step 3. Document Crosswalk Conditions	15
Step 4. Select Intersections for Pedestrian Safety Interventions	16
Step 5. Collect Baseline Observational Data.....	17
III. PROGRAM IMPLEMENTATION	21
Introduction.....	21
Engineering Components.....	21
Advance Stop Lines at Crosswalks.....	22
Lead Pedestrian Intervals	23
Scanning Eyes on Pedestrian Signal Heads.....	24
Pedestrian Prompting Signs	24
Motorists Prompting Signs	25
Special Pedestrian Safety Improvements	26
Education Components	27
Electronic Message Boards	28
School Education Interventions	29
Community Education Interventions	30
Enforcement Interventions	32
Yielding to Pedestrians Warning Program 1: December 18, 1998	32
Yielding to Pedestrians Warning Program 2: October 6, 1999	32
IV. PROGRAM EVALUATION.....	33
Introduction.....	33
Methodology	33
Findings	34
Motorists Yielding to Pedestrians at Crosswalks	34
Pedestrian-Motor Vehicle Conflicts at Crosswalks	38
Discussion of Intervention Efforts and Site Results.....	42
Engineering Interventions	42
Education Interventions	44
Enforcement Interventions	44
Summary	45
V. CONCLUSIONS	47
Overview	47
Summary of Findings.....	48
Study Limitations	50
Recommendations	51
REFERENCES	53
