# Kansas City Streetcar Project

Burns & McDonnell

## The Project

- Two mile, \$100 million historic downtown rail line
- Among the largest relocations of underground utilities ever in Kansas City
- 27 public and private utility project partners *plus* numerous stakeholders

# Kansas City Streetcar Project

Burns & McDonnell

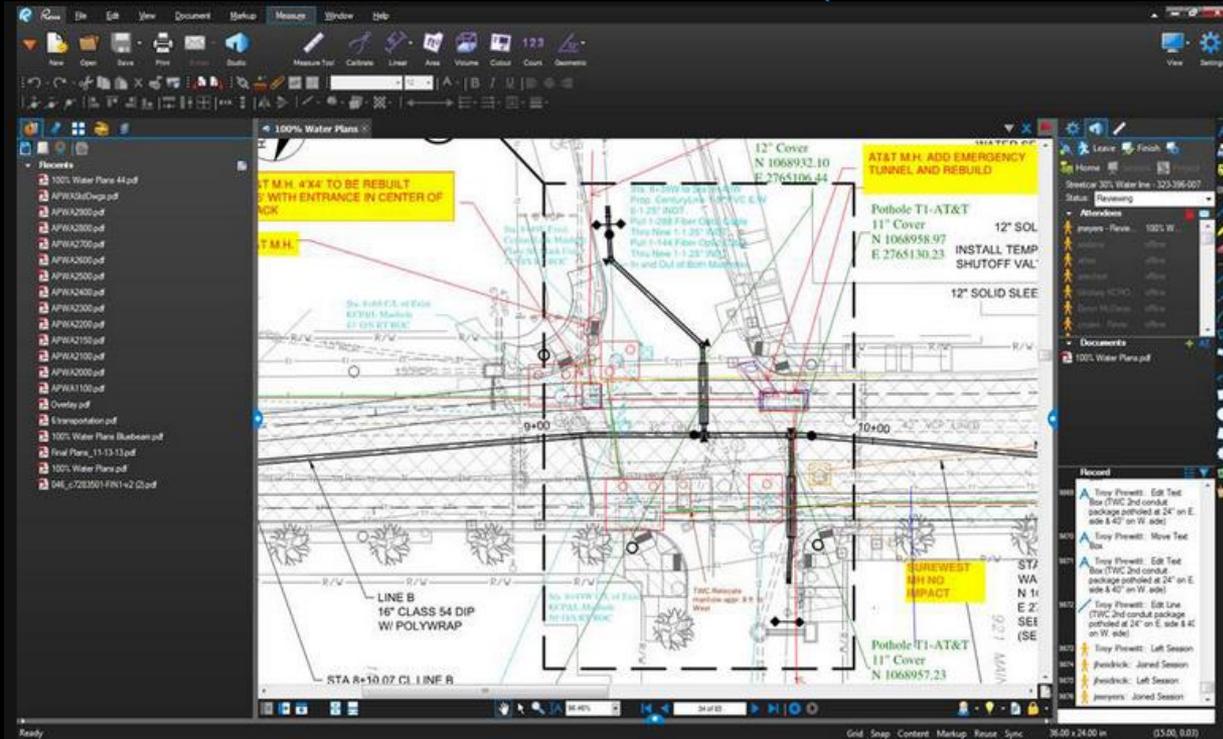

## The Technology Solution

- Revu used for utility relocation markup and city permit applications
- Bluebeam Studio for information management and collaboration
- Revu for iPad in the field
- Bluebeam Vu gave information access to even those without licenses
- Created and shared custom tool sets with project partners

# Kansas City Streetcar Project

## Burns & McDonnell

# Kansas City Streetcar Project

Burns & McDonnell

## The Results

- More than two weeks saved over an 8-month project period
- More than 5,500 digital comments and 68 users
- Relocation work completed with zero rework and delays
- Project partners adoption of Revu themselves

# Thank you!
