Key Previous Experience

- Senior Project Engineer on I-75/I-275 apex, which includes a steel category 2 bridge and interstate widening.
- District Seven Engineering Consultant, performing plan reviews, claims analysis and schedule analysis.
- Plan reviewer, claims analysis, and schedule analysis on the D7 Construction Interstate Engineering Support Consultant Contract.
- Constructability reviews of US 19 at Enterprise Road (pedestrian trail), US 19 from Whitney Road to SR 60, and Crosstown Connector.

Joy Christiano has over 16 years of experience in the engineering, inspection, and construction management of Florida Department of Transportation (FDOT) roadways and bridges. She has provided support to the FDOT Consultant CEI Office District 7 through the Interstate Engineering Support Contract and to the District Seven Construction office through TBE's General Engineering Consultant contract. She is a specialist in the administration of major work programs, value engineering, constructability reviews, CPM schedule management and review, supplemental agreement and work order processing, final estimates, utility coordination, permit monitoring and compliance, partnering, claims evaluation and resolution, dispute review and arbitration, and quality control. Her previous ten years working for FDOT uniquely qualifies her to understand the owner's perspective. She has managed over \$500 million in construction contracts. While at FDOT she was instrumental in getting some of the LAP projects kicked off in the infant stages of the LAP program.

PROJECT EXPERIENCE

I-75 South of I-75/I-275 apex to South of SR 56, Hillsborough and Pasco County, Florida (FDOT project). Senior Project Engineer from October 2009 to present. Work includes constructing two bridges (one is a steel category 2 bridge), high mast lighting, interstate widening, MSE walls, large deep pipe construction, microtunnels, pond construction with liner, signing, and working in an Outstanding Florida Water (OFW). *FDOT District Seven Construction Project Manager: Gerald A. Cavallaro (813) 233-3833.*
