Employment History

Sept 1, 2003 - Consultant, DRB Member
Current

1988-2003 Anderson Columbia Co., Inc., Lake City Florida – President
Responsible for all phases of company operations from estimating to final completion. Construction of 1000's of civil projects including interstate highway construction, resurfacing, interchanges, bridges (new & reconstructed), landfills, various airports, numerous primary and secondary roadways particularly for the Florida Department of Transportation. Also responsible for various city and county projects, as well as site development and construction for private clients. Involved in design build, low bid and negotiated contracts.

1988-1999 Anderson Columbia Environmental, Inc. Lake City, Florida – President
Responsible for oversight of company operations. Company worked throughout the southeast on environmental cleanup and construction projects for US Corps of Engineers, US Navy, US Air Force, and various other governmental entities as well as various private clients.

1978-1988 Columbia Paving, Lake City, Florida - President
Direct oversight of all phases of company operations from bidding to final completion. Constructed numerous Florida Department of Transportation projects including resurfacing and new construction of interstate highways, primary and secondary roads, as well as projects for cities, counties and private clients.

1959-1978 HDW-Houdaille, Jacksonville, Florida – Division Manager
Manager of the Asphalt Division, responsible for 14 asphalt plants and all operations from bidding to final completion. Constructed many projects throughout Florida and Georgia including projects consisting of interstate highways, primary and secondary roadways, US Corps of Engineers, US Navy, Jacksonville Expressway Authority, Florida and Georgia Departments of Transportation, various cities, counties and private clients.

I have been involved for over 50 years in the construction of various highway and civil projects throughout the southeast primarily in the State of Florida. A large part of my construction experience has been on Florida Department of Transportation projects.

Since my retirement in 2003, I have worked as a Consultant and served as a DRB Board Member. As a result of my many years of experience and involvement in a wide variety of highway and civil projects I am well qualified to serve as an unbiased and objective DRB Member.
