WORK EXPERIENCE

1986 – 1992

B. G. Danis Company – Highway Division

Vice President of Florida Highway Operation

Supervised \$85 million of road and bridge construction. Took over operation of Danis subsidiary and completed additional \$50 million of grading work including theme park, highway and landfill projects.

1984 - 1986

Jasper Construction Company

Executive Vice President, Secretary and Treasurer

Directly responsible for \$350 million in contracts for heavy grading and bridge construction in Atlanta for the Georgia Department of Highways. Bridges consisted of heavy post tension concrete structures with difficult false work in heavy traffic areas.

Numerous other structures with both concrete and steel beam construction. In charge of concrete and asphalt operations – two complete paving operations and four asphalt placing operations performing work in and around Atlanta, GA.

1972 – 1984

S.J. Groves & Sons

Vice President and General Manager

Responsible for business dealing with operation of heavy equipment and highway construction projects in the Southeastern portion of the United States. Work performed in West Virginia, North Carolina, Virginia, and Florida. Projects included highway construction, shopping center grading, and nuclear power plant grading.

S.J. Groves Overseas

Supervised highway construction project in Bolivia. Prepared bids for highway construction projects in Central America, with one joint venture project completed in Guatemala.

Gopher Mining Co.

Executive Vice President and Chief Operating Officer

Operated strip mine of 1,000 acre permit – coal – and also smaller strips. Performed construction work at mine sites in Virginia, West Virginia, and Kentucky.

Manlo Mining Co.

Executive Vice President and Chief Operating Officer

Operated coal preparation plant and coal sales.

Alemeda-La Paz, Bolivia

Executive Vice President and Chief Operating Officer

Operated a lead and silver mine in Bolivia with a new mill set-up. Gold concessions were investigated and lead, zinc, and silver exploration was done in Guatemala.

1954 – 1972

J.Groves & Sons

Estimator and Project Manager in West Virginia, Ohio, Minnesota, and Pennsylvania

Primary responsibility for all bridge work in the above states. Minnesota bridges consisted of large work over the Mississippi River and large interstate bridges in St. Paul.

1948 – 1954

N.Jackson Co. and Ralph E. Mills Co.

Superintendent of Bridges

Work included equipment operator, roller, grader, dozer, loaders, ironworker foreman, concrete foreman, and field superintendent. Projects included grading, bridges, culver construction, roadway bases, and concrete paving.
