Agreement No.: BDT99
Financial Project I.D.: _____
Journal Trans./F.E.I.D. #: VF592870670001
Benefiting Object Code: _____
Benefiting Category: _____
Appropriation Bill Number(s)/Line Item Number(s) for 1st year of
contract, pursuant to s. 216.313, F.S.: #088716, Line#1956
(required for contracts in excess of \$5 million)
Procurement No.: Exempt
D.M.S. Catalog Class No.: 991-380

BY THIS AGREEMENT, made and entered into this 12th day of JUNE, 2012, by and
between the STATE OF FLORIDA DEPARTMENT OF TRANSPORTATION, hereinafter called the "Department" and
the Florida Department of Highway Safety and Motor Vehicles
of Division of Highway Patrol, Neil Kirkman Building, B-443, Tallahassee, Florida 32301
an agency or educational unit as defined in Chapter 120, Florida Statutes, hereinafter called "Vendor", hereby agree as
follows:

1. SERVICE

A. In connection with Work Zone Traffic Control

the Department does hereby retain the Vendor to furnish certain services, information and items as
described in Exhibit "A", attached hereto and made a part hereof.

2. TERM

A. Initial Term. This Agreement shall begin on date of execution and shall terminate on 6/30/2017
Services shall commence July 1, 2012
and shall be completed by June 30, 2017
or date of termination, whichever occurs first.

B. RENEWALS (Select appropriate box):

This Agreement may not be renewed.

This Agreement may be renewed for a period that may not exceed three (3) years or the term of the
original agreement, whichever period is longer. Renewals shall be contingent upon satisfactory
performance evaluations by the Department and subject to the availability of funds. Any renewal or
extension shall be in writing and shall be subject to the same terms and conditions set forth in this
Agreement.

3. COMPENSATION AND PAYMENT

- A. The Department agrees to pay the Vendor for the herein described services at a compensation as
detailed in this agreement.
- B. Payment shall be made only after receipt and approval of goods and services unless advance payments
are authorized by the State Comptroller under Section 215.422(14), Florida Statutes.
- C. If this Agreement involves units of deliverables, then such units must be received and accepted in writing
by the Contract Manager prior to payments.
- D. Any penalty for delay in payment shall be in accordance with Section 215.422, Florida Statutes.
- E. The bills for fees or other compensation for services or expenses shall be submitted in detail sufficient for
a proper preaudit and postaudit thereof.

- F. The bills for any travel expenses, when authorized by terms of this Agreement and by the Department's Project Manager, shall be submitted in accordance with Section 112.061, Florida Statutes, and Chapter 3-Travel, Department's Disbursement Operations Manual, 350-030-400.
- G. A Vendor Ombudsman has been established within the Department of Banking and Finance. The duties of this individual include acting as an advocate for contractors/vendors who may be experiencing problems in obtaining timely payment(s) from a state agency. The Vendor Ombudsman may be contacted at (850) 413-5516.
- H. The Department, during any fiscal year, shall not expend money, incur any liability, or enter into any contract which, by its terms, involves the expenditure of money in excess of the amounts budgeted as available for expenditure during such fiscal year. Any agreement, verbal or written, made in violation of this subsection is null and void, and no money may be paid on such agreement. The Department shall require a statement from the Comptroller of the Department that funds are available prior to entering into any such agreement or other binding commitment of funds. Nothing herein contained shall prevent the making of agreements for periods exceeding one year, but any agreement so made shall be executory only for the value of the services to be rendered or agreed to be paid for in succeeding fiscal years. Accordingly, the Department's performance and obligation to pay under this Agreement is contingent upon an annual appropriation by the Legislature.
- I. Records of costs incurred under terms of this Agreement shall be maintained and made available upon request to the Department at all times during the period of this Agreement and for three (3) years after final payment for the work pursuant to this Agreement is made. Copies of these documents and records shall be furnished to the Department upon request. Records of costs incurred shall include the Vendor's general accounting records and the project records, together with supporting documents and records, of the Vendor and all subcontractors performing work on the project, and all other records of the Vendor and subcontractors considered necessary by the Department for a proper audit of project costs.

4. COMPLIANCE WITH LAWS

- A. The Vendor shall allow public access to all documents, papers, letters, or other material subject to the provisions of Chapter 119, Florida Statutes, and made or received by the Vendor in conjunction with this Agreement. Failure by the Vendor to grant such public access shall be grounds for immediate unilateral cancellation of this Agreement by the Department.
- B. A person or affiliate who has been placed on the convicted vendor list following a conviction for a public entity crime may not submit a bid, proposal, or reply on a contract to provide any goods or services to a public entity, may not submit a bid, proposal, or reply on a contract with a public entity for the construction or repair of a public building or public work, may not submit bids, proposals, or replies on leases of real property to a public entity, may not be awarded or perform work as a contractor, supplier, subcontractor, or consultant under a contract with any public entity, and may not transact business with any public entity in excess of the threshold amount provided in Section 287.017, Florida Statutes for CATEGORY TWO for a period of 36 months following the date of being placed on the convicted vendor list.
- C. The Department shall consider the employment by any vendor of unauthorized aliens a violation of Section 274A(e) of the Immigration and Nationality Act. If the vendor knowingly employs unauthorized aliens, such violation shall be cause for unilateral cancellation of this agreement.
- D. Pursuant to Section 216.347, Florida Statutes, the vendor may not expend any State funds for the purpose of lobbying the Legislature, the judicial branch, or a state agency.

5. TERMINATION AND DEFAULT

- A. This Agreement may be canceled by the Department in whole or in part at any time the interest of the Department requires such termination. The Department further reserves the right to terminate or cancel this Agreement in the event an assignment be made for the benefit of creditors.

- B. If the Department determines that the performance of the Vendor is not satisfactory, the Department shall have the option of (a) immediately terminating the Agreement, or (b) notifying the Vendor of the deficiency with a requirement that the deficiency be corrected within a specified time, otherwise the Agreement will be terminated at the end of such time, or (c) taking whatever action is deemed appropriate by the Department.
- C. If the Department requires termination of the Agreement for reasons other than unsatisfactory performance of the Vendor, the Department shall notify the Vendor of such termination, with instructions as to the effective date of termination or specify the stage of work at which the Agreement is to be terminated.
- D. If the Agreement is terminated before performance is completed, the Vendor shall be paid only for that work satisfactorily performed for which costs can be substantiated. Such payment, however, may not exceed an amount which is the same percentage of the agreement price as the amount of work satisfactorily completed is a percentage of the total work called for by this Agreement. All work in progress will become the property of the Department and will be turned over promptly by the Vendor.
- E. If the Agreement is for goods or services of \$1 million or more and was entered into or renewed on or after July 1, 2011 and the Department determines that the Vendor submitted a false certification under Section 287.135(5), Florida Statutes, or if the Vendor has been placed on the Scrutinized Companies with Activities in the Sudan List or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, the Department shall have the option of (a) terminating the Agreement after it has given the Vendor notice and an opportunity to demonstrate the agency's determination of false certification was in error pursuant to Section 287.135(5)(a), Florida Statutes, or (b) maintaining the Agreement if the conditions of Section 287.135(4), Florida Statutes, are met.

6. ASSIGNMENT AND SUBCONTRACTS

- A. The Vendor shall not sublet, assign or transfer any work under this Agreement without the prior written consent of the Department.
- B. This Agreement involves the expenditure of federal funds and hence, Appendix I is applicable to all parties and is hereof made a part of this Agreement

7. DISCRIMINATION

- A. An entity or affiliate who has been placed on the discriminatory vendor list may not submit a bid, proposal, or reply on a contract to provide any goods or services to a public entity, may not submit a bid, proposal, or reply on a contract with a public entity for the construction or repair of a public building or public work, may not submit bids, proposals, or replies on leases of real property to a public entity, may not be awarded or perform work as a contractor, supplier, subcontractor, or consultant under a contract with any public entity, and may not transact business with any public entity.

8. MISCELLANEOUS

- A. This Agreement embodies the whole agreement of the parties. There are no promises, terms, conditions, or obligations other than those contained herein, and this Agreement shall supersede all previous communications, representations, or agreements, either verbal or written, between the parties hereto.
- B. It is understood and agreed by the parties hereto that if any part, term or provision of this Agreement is by the courts held to be illegal or in conflict with any law of the State of Florida, the validity of the remaining portions or provisions shall not be affected, and the rights and obligations of the parties shall be construed and enforced as if the Agreement did not contain the particular part, term or provision held to be invalid.
- C. This Agreement shall be governed by and construed in accordance with the laws of the State of Florida.

D. Vendor/Contractor:

1. shall utilize the U.S. Department of Homeland Security's E-Verify system to verify the employment eligibility of all new employees hired by the Vendor/Contractor during the term of the contract; and
2. shall expressly require any subcontractors performing work or providing services pursuant to the state contract to likewise utilize the U.S. Department of Homeland Security's E-Verify system to verify the employment eligibility of all new employees hired by the subcontractor during the contract term.

9. The following attachments are incorporated and made a part of this Agreement:

Terms for Federal Aid Contracts (Appendix 1)
Exhibit "A" - Scope of Services
Exhibit "B" - Method of Compensation
Attachment "A" - Guidelines For Use of Florida Highway Patrol in Work Zone Speed Control

10. Other Provisions:

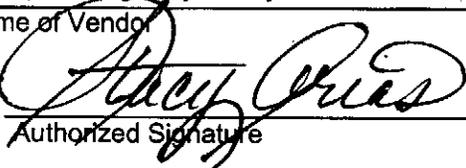

IN WITNESS WHEREOF, the parties have executed this Agreement by their duly authorized officers on the day, month and year set forth above.

TERMS FOR FEDERAL AID CONTRACTS (APPENDIX I):
CONTRACT (Purchase Order) # BDT99

The following terms apply to all contracts in which it is indicated in Section 7.B of the Standard Written Agreement, the Master Agreement Terms and Conditions, the Contractual Services Agreement, or the Purchase Order Terms and Conditions, that the contract involves the expenditure of federal funds:

- A. It is understood and agreed that all rights of the Department relating to inspection, review, approval, patents, copyrights, and audit of the work, tracing, plans, specifications, maps, data, and cost records relating to this Agreement shall also be reserved and held by authorized representatives of the United States of America.
- B. It is understood and agreed that, in order to permit federal participation, no supplemental agreement of any nature may be entered into by the parties hereto with regard to the work to be performed hereunder without the approval of U.S.D.O.T., anything to the contrary in this Agreement notwithstanding.
- C. **Compliance with Regulations:** The Contractor shall comply with the Regulations relative to nondiscrimination in Federally-assisted programs of the U.S. Department of Transportation (hereinafter, "USDOT") Title 49, Code of Federal Regulations, Part 21, as they may be amended from time to time, (hereinafter referred to as the Regulations), which are herein incorporated by reference and made a part of this Agreement.
- D. **Nondiscrimination:** The Contractor, with regard to the work performed during the contract, shall not discriminate on the basis of race, color, national origin, sex, age, disability, religion or family status in the selection and retention of subcontractors, including procurements of materials and leases of equipment. The Contractor shall not participate either directly or indirectly in the discrimination prohibited by section 21.5 of the Regulations, including employment practices when the contract covers a program set forth in Appendix B of the Regulations.
- E. **Solicitations for Subcontractors, including Procurements of Materials and Equipment:** In all solicitations made by the Contractor, either by competitive bidding or negotiation for work to be performed under a subcontract, including procurements of materials or leases of equipment; each potential subcontractor or supplier shall be notified by the Contractor of the Contractor's obligations under this contract and the Regulations relative to nondiscrimination on the basis of race, color, national origin, sex, age, disability, religion or family status.
- F. **Information and Reports:** The Contractor shall provide all information and reports required by the Regulations or directives issued pursuant thereto, and shall permit access to its books, records, accounts, other sources of information, and its facilities as may be determined by the *Florida Department of Transportation, the Federal Highway Administration, Federal Transit Administration, Federal Aviation Administration, and/or the Federal Motor Carrier Safety Administration* to be pertinent to ascertain compliance with such Regulations, orders and instructions. Where any information required of a Contractor is in the exclusive possession of another who fails or refuses to furnish this information the Contractor shall so certify to the *Florida Department of Transportation, the Federal Highway Administration, Federal Transit Administration, Federal Aviation Administration, and/or the Federal Motor Carrier Safety Administration* as appropriate, and shall set forth what efforts it has made to obtain the information.
- G. **Sanctions for Noncompliance:** In the event of the Contractor's noncompliance with the nondiscrimination provisions of this contract, the *Florida Department of Transportation* shall impose such contract sanctions as it or the *Federal Highway Administration, Federal Transit Administration, Federal Aviation Administration, and/or the Federal Motor Carrier Safety Administration* may determine to be appropriate, including, but not limited to:
 - 1. withholding of payments to the Contractor under the contract until the Contractor complies, and/or
 - 2. cancellation, termination or suspension of the contract, in whole or in part.
- H. **Incorporation of Provisions:** The Contractor shall include the provisions of paragraphs C. through H. in every subcontract, including procurements of materials and leases of equipment, unless exempt by the Regulations, or directives issued pursuant thereto. The Contractor shall take such action with respect to any subcontract or procurement as the *Florida Department of Transportation, the Federal Highway Administration, Federal Transit Administration, Federal Aviation Administration, and/or the Federal Motor Carrier Safety Administration* may direct as a means of enforcing such provisions including sanctions for noncompliance. In the event a

Contractor becomes involved in, or is threatened with, litigation with a sub-contractor or supplier as a result of such direction, the Contractor may request the *Florida Department of Transportation* to enter into such litigation to protect the interests of the *Florida Department of Transportation*, and, in addition, the Contractor may request the United States to enter into such litigation to protect the interests of the United States.

- I. Interest of Members of Congress: No member of or delegate to the Congress of the United States shall be admitted to any share or part of this contract or to any benefit arising there from.
- J. Interest of Public Officials: No member, officer, or employee of the public body or of a local public body during his tenure or for one year thereafter shall have any interest, direct or indirect, in this contract or the proceeds thereof. For purposes of this provision, public body shall include municipalities and other political subdivisions of States; and public corporations, boards, and commissions established under the laws of any State.
- K. Participation by Disadvantaged Business Enterprises: The Consultant shall agree to abide by the following statement from 49 CFR 26.13(b). This statement shall be included in all subsequent agreements between the Consultant and any sub-consultant or contractor.

The contractor, sub recipient or subcontractor shall not discriminate on the basis of race, color, national origin, or sex in the performance of this contract. The contractor shall carry out applicable requirements of 49 CFR Part 26 in the award and administration of DOT-assisted contracts. Failure by the contractor to carry out these requirements is a material breach of this contract, which may result in the termination of this contract or such other remedy as the recipient deems appropriate.

- L. It is mutually understood and agreed that the willful falsification, distortion or misrepresentation with respect to any facts related to the project(s) described in this Agreement is a violation of the Federal Law. Accordingly, United States Code, Title 18, Section 1020, is hereby incorporated by reference and made a part of this Agreement.
- M. It is understood and agreed that if the Consultant at any time learns that the certification it provided the Department in compliance with 49 CFR, Section 26.51, was erroneous when submitted or has become erroneous by reason of changed circumstances, the Consultant shall provide immediate written notice to the Department. It is further agreed that the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transaction" as set forth in 49 CFR, Section 29.510, shall be included by the Consultant in all lower tier covered transactions and in all aforementioned federal regulation.
- N. The Department hereby certifies that neither the consultant nor the consultant's representative has been required by the Department, directly or indirectly as an express or implied condition in connection with obtaining or carrying out this contract, to
 - 1. employ or retain, or agree to employ or retain, any firm or person, or
 - 2. pay, or agree to pay, to any firm, person, or organization, any fee, contribution, donation, or consideration of any kind;

The Department further acknowledges that this agreement will be furnished to a federal agency, in connection with this contract involving participation of Federal-Aid funds, and is subject to applicable State and Federal Laws, both criminal and civil.

- O. The Consultant hereby certifies that it has not:
 - 1. employed or retained for a commission, percentage, brokerage, contingent fee, or other consideration, any firm or person (other than a bona fide employee working solely for me or the above contractor) to solicit or secure this contract;
 - 2. agreed, as an express or implied condition for obtaining this contract, to employ or retain the services of any firm or person in connection with carrying out this contract; or
 - 3. paid, or agreed to pay, to any firm, organization or person (other than a bona fide employee working solely for me or the above contractor) any fee contribution, donation, or consideration of any kind for, or in connection with, procuring or carrying out the contract.

The consultant further acknowledges that this agreement will be furnished to the State of Florida Department of Transportation and a federal agency in connection with this contract involving participation of Federal-Aid funds, and is subject to applicable State and Federal Laws, both criminal and civil.

EXHIBIT "A"

Scope of Services

I. Objective

The FDOT, through its construction and maintenance activities, is making certain improvements to the highways throughout the State of Florida. Often, these improvements will cause closure of portions of the roadway causing traffic restrictions or necessity to divert vehicular movement. It then becomes necessary to implement an effective work zone traffic control system that provides for the safety and protection of both work zone workers and the motoring public moving through the work zones. This work zone traffic control system will include utilization of appropriate law enforcement services provided by the Department of Highway Safety and Motor Vehicles (DHSMV), Division of Florida Highway Patrol (FHP). FHP Troopers will control traffic through work zones to enforce traffic laws and to provide other specific assistance as necessary.

The FHP will provide uniformed Officers as needed by FDOT, subject to the approval and staffing needs of the FHP. Assignment of FHP officers will be made in accordance with the established DHSMV program guidelines. FHP officers will be scheduled to patrol at mutually agreed times and locations. Officers assigned work zone patrols will be responsible for coordinating all necessary emergency services, patrol activities, and directing traffic under the direct control of the assigned FHP District Commander. Work zone activities will be coordinated with the FDOT Project Administrator or Maintenance Engineer (or specifically assigned project designees).

Law enforcement services provided are for the exclusive purpose of assisting FDOT to properly protect work zone personnel and affected motorists during necessary highway construction or maintenance activities. The FHP agrees to cooperate with the FDOT by providing any information necessary to assist in the evaluation of this work zone safety project. The FHP further agrees to permit FDOT or its designee to audit and inspect any records pertaining to services provided under this Master Agreement.

II. Services to be provided by FHP

- A. All work zone patrols will be staffed utilizing existing FHP overtime hire back procedures.
- B. The patrol program procedures will include non-FDOT compensated FHP non-bargaining unit supervisory personnel as participants for program supervision and/or evaluation.
- C. FHP personnel assigned to the work zone patrols will be directly accountable only to assigned FHP District Commander. The assigned FHP Officers will coordinate work zone activities with the FDOT Project Administrator or Maintenance Engineer (or their project designee). During the period of rendition of the forgoing services, the Officers shall be considered on detail from their regular work assignments. The trooper shall remain the employee of the DHSMV for all purposes.
- D. Incidents investigated by FHP personnel will follow standard FHP reporting and operational procedures.
- E. FHP emergency staffing needs will take precedence over work zone hire back patrols. In the event an officer must leave the work zone for such an emergency, the designated FDOT representative will be notified via email.
- F. Court time encountered as a result of these patrols will be the responsibility of the FHP and will not be reimbursed by FDOT.
- G. Vehicle maintenance costs will be the responsibility of FHP and will not be reimbursed by FDOT.
- H. FHP officers participating in work zone patrols will be compensated only for those hours in which patrols are actually performed within the project limits.
- I. FHP agrees to provide quarterly reports to FDOT summarizing work zone patrol activities. The reporting criteria and format will be mutually agreed upon by FHP and FDOT. The reports are to be provided to the FDOT State Construction Office.
- J. Any Officer participating under this Master Agreement who suffers disability or death as a result of personal injury arising out of and in the performance of duties in connection herewith shall be treated as an employee of the DHSMV who sustained injury or death in the performance of duty.

- K. This Master Agreement shall be the primary method for the FDOT to secure work zone traffic control and law enforcement security for highway escort, construction or maintenance, and other improvements to the various roadways throughout the State of Florida.

III. Responsibilities of FDOT

- A. FDOT will provide the opportunity to FHP for review of work zone traffic control plans. FDOT will coordinate project schedules with FHP to allow for advanced scheduling of patrols. A minimum of two weeks advanced notification is required for project patrol needs. For unscheduled needs that occur, a minimum of 24 hours advanced notification is required.
- B. The designated FDOT representative will provide at least two hours prior notification to FHP should scheduled patrols become unnecessary. When weather or some other unusual circumstances occurs which necessitates canceling the workday and the two (2) hours advance notice is not provided, the FHP officer will be reimbursed for actual work time not to exceed a maximum of two (2) hours.
- C. The designated FDOT representative will provide the "Journal Transfer Receipts" or State Wide Document Number (SWDN) via e-mail to DHSMV.
- D. For cancellations to work zone traffic control, the FDOT project designee will provide a five day advance notice, in writing, to the FHP District Commander and the FHP Point of Contact.

EXHIBIT "B"

Method of Compensation

1.0 PURPOSE

This Exhibit defines the limits and method of compensation to be made to the Vendor for services set forth in the Exhibit "A" and the method by which payments shall be made.

2.0 ASSIGNMENT OF WORK

The FDOT shall request Vendor services on an as needed basis. Services to be provided on each project will be initiated and completed as directed by the Project Administrator or Maintenance Engineer or designee. A Letter of Authorization (LOA) will be issued for each assignment (see attached Letter of Authorization form).

3.0 ESTABLISHMENT OF MAXIMUM AMOUNT PER ASSIGNMENT

For each proposed construction work zone detail requested, the FDOT shall prepare an estimate of work and price based on the rate established by this contract. FDOT shall submit the estimated detail cost to the Vendor. The Vendor will review the specific detail estimate to determine if sufficient staffing and budget will be available. After the Vendor and the FDOT's Project Administrator, Maintenance Engineer or designee have agreed upon an acceptable maximum amount for the assignment, the FDOT will issue a Letter of Authorization (LOA) to the Vendor. The Project Administrator shall obtain fund approval for each authorization by an approved encumbrance prior to issuing the Letter of Authorization. All work assignments shall be completed within the term of this agreement. The maximum amount per assignment will be an estimate. Additional funds for added time or duties must be reviewed and approved by the Vendor prior to the acceptance of an amended LOA.

The included class is to be compensated at the regular rate of wages times up to 1.5765 per hour. The excluded class is to be compensated at the rate of \$35.00 per hour times up to 1.0765.

In the competitive market areas of Dade, Hillsborough, Pinellas, Palm Beach and Broward counties, construction work zone enforcement details may be compensated at the greater of the rate provided above or \$45.00 per hour times up to 1.0765.

In addition to the amounts calculated as provided in the above paragraphs, a markup of 7.5% shall be allowed to cover indirect costs of Highway Safety.

Fuel reimbursement shall be compensated based on the AAA's current average cost per gallon for Florida, less taxes, for the period invoiced. Fuel reimbursement shall be calculated as follows: The average cost per gallon is multiplied by the average gallons per hour of 2.18 (as consumed by an idle FHP vehicle) multiplied by the total number of hours of work detail.

Example: FHP officers (all excluded class) worked 100 hours of detail for the billing period at \$35/hour, and the average cost of gas per gallon for the billing period, less tax, was \$3.70. Total reimbursement would be as follows:

$$[(100 \text{ hours}) (\$35/\text{hour}) (1.0765) + (\$3.70/\text{gallon}) (2.18/\text{hour}) (100 \text{ hours})](1.075 \text{ markup}) = (3767.75 + 806.60) (1.075) = (4574.35) (1.075) = \underline{\$4917.43}$$

4.0 COMPENSATION

This is an Indefinite Quantity Contract whereby the Vendor agrees to furnish services during a prescribed period of time. The specific period of time completes such a contract. The FDOT will authorize services based on need and availability of budget. There is no Total Maximum Amount for this contract.

5.0 PROGRESS PAYMENTS

The Department of Highway Safety and Motor Vehicles shall submit invoices based on a 4 week billing period (two bi-weekly pay periods), in a format acceptable to the FDOT and sufficient for audit. All invoices shall include an itemization of the number of FHP hours worked, the rate of pay, and the average cost of fuel per gallon for Florida, less taxes, for the period invoiced. In addition, the Payroll Summary Sheet for Included and/or Excluded employees and the PAPS235A printout are required as backup to the invoice and will be considered as acceptable documentation to pay the invoice. The invoice and backup may be emailed to the FDOT project designee. The Vendor shall be paid for work performed in accordance with the terms and conditions of this contract.

For a billing period that extends beyond the State fiscal year or exceeds the beginning or ending contract date, the Department of Highway Safety and Motor Vehicles shall submit invoices that are calculated based on the dates being billed and will not exceed the end of the fiscal year date (June 30) or beginning/ending dates.

6.0 DETAILS OF UNIT RATE

Details of Unit Rates for the performance of the Vendor's services set forth in Exhibit "A" are as detailed below:

AVERAGE RATE TO BE USED FOR ESTIMATING MAXIMUM AMOUNTS (Includes the allowance)	= \$ 35.00 per hour unless approved for the competitive market areas of Dade, Hillsborough, Pinellas, Palm Beach and Broward counties
PAYMENT RATE	= FHP OFFICER WAGE RATE as determined in Section 3.0 above.

7.0 ADVANCE PAYMENT

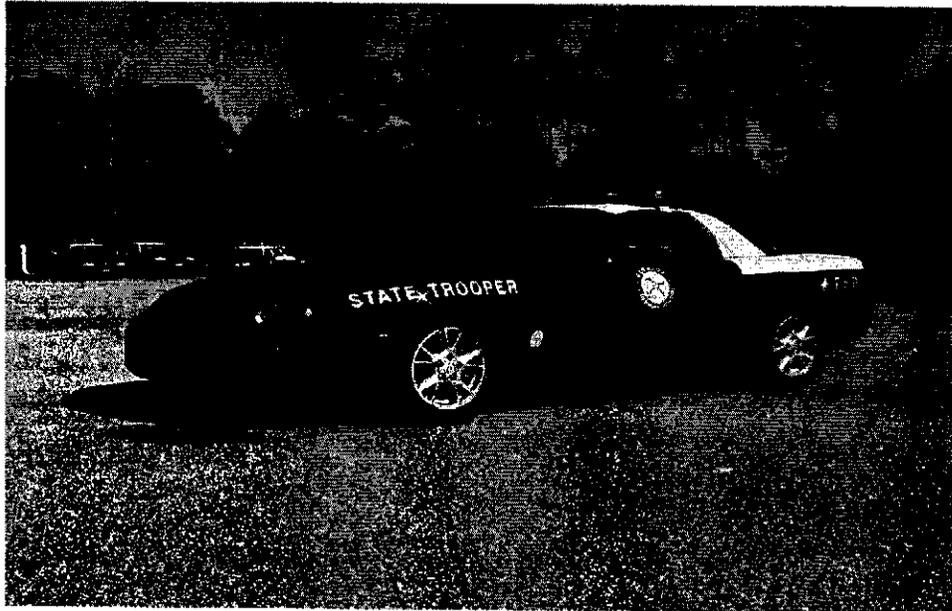

The FDOT has provided to the Vendor, DHSMV, under prior agreements (Florida Department of Transportation Contract No. B8970, BB081, BD306, and BDI55) advance payment in the amount of \$100,000, to provide an

operating budget for projects that may be authorized by the FDOT. Upon completion of all services or contract termination, whichever is first, the Vendor (DHSMV) shall refund to the FDOT the advance payment of \$100,000 for operating budget.

**GUIDELINES FOR USE OF FLORIDA
HIGHWAY PATROL IN WORK ZONE
SPEED CONTROL**

July 2012

GUIDELINES FOR USE OF FLORIDA HIGHWAY PATROL IN WORK ZONE SPEED CONTROL

INTRODUCTION

PURPOSE

The purpose of this guideline is to provide the user with information, which will aid in determining the need for and method(s) of use of Florida Highway Patrol Officers for speed control through work zones. The guide will lead the user from determination of need through the invoice processing instructions. Design, Construction and Maintenance personnel, both in-house and consultants, should find the guide useful. The guide primarily deals with use of patrolling officers on freeways and other limited access facilities, but will also discuss other possible officer uses.

BACKGROUND

It has been clearly recognized that the average motorist does not comply with posted reduced speed through work zones. While our standard reduced speed is 10 mph from the normal speed limit, speeds much higher than this are often found. This presents a safety hazard to workers, motorists and equipment.

The use of a stationary officer has proven to be less effective than desired. No patrolling was done, no tickets written, no arrests made and therefore, minimal compliance obtained. The public's disregard of this method has resulted in reduced effectiveness.

Staff from FDOT and FHP prepared a joint contractual agreement, which is included in this guide, which provides for FHP officer use on highways to actively enforce reduced speeds through work zones. The officers will be ticketing speeders and making regular patrols through the entire work zone. We feel that this mobile presence and enforcement activities will greatly improve present conditions.

USE OF AGREEMENT - ESTABLISHING NEEDS AND PLANS IMPACT

DETERMINATION OF NEED

The need for law enforcement services should be determined during the development of the Traffic Control Plan (TCP). This can only be accomplished through consultation with construction personnel, review of the MOT phases and proposed MOT set-ups. Knowledge of local traffic, drivers and experience with work zone controls will be helpful. Similar projects, the experiences of project engineers on those projects, and a review of the records will also offer some insights. Local law enforcement agencies should be contacted for assistance and consultation.

RECOMMENDATIONS FOR ON-DUTY ENFORCEMENT SERVICES

Conditions on limited access facilities to consider the use of On-Duty FHP may include, but not limited to:

- A work zone requiring reduced speed.
- Work zones where barrier wall is used adjacent to through traffic.
- Nighttime work zones.
- Areas with intense commuter use where peak hour traffic will require speed enforcement.
- A work zone in which workers are exposed to nearby high-speed traffic.
- Work zones similar to Design Standards, Indexes 613, 614 and 651, as they would apply to limited access facilities.
- On-Duty FHP can be used on non-limited access highways provided that the District Director of Operations has approved.
- Work within high use signalized intersections.
- High volume urban roadways with lane closures during peak hour traffic.

ALSO:

- 1) The Department has determined that construction or maintenance activities on freeways and other limited access facilities during night time hours that require lane closures which divert or restrict vehicular movement through work zones are encouraged to have active

enforcement to provide for the safety and protection of workers, motorists and equipment.

2) Closures at other times and on other highways may also warrant officers. This could depend on the duration of closure, magnitude of construction activity involved, type traffic control plan in place, volume of traffic, seasonal needs, etc. This decision must be made during the TCP development.

3) Certain work zones may require scheduled officers on days when there is not any construction or maintenance activities in progress. When the work zone posted speed limits must be reduced for safety, but there is not any visible work in progress the traveling motorists will attempt to exceed the posted work zone speed limit.

4) Other uses of On-Duty Law Enforcement Services - During any construction or maintenance activity where the FDOT Project Administrator determines that officers in the work zone are required to control the speed of traffic to the posted speed limit for protection of workers and motorists. A Letter of Authorization is required for all uses of this agreement.

All such required on-duty enforcement services shall be acquired, administered and paid for in accordance with the FDOT/DHSMV "Contractual Services Agreement". For on-duty enforcement services, only uniformed FHP officers on detail from their regular work assignments shall be used under this agreement.

DETERMINING STAFFING REQUIREMENTS

When the need for active patrolling is determined, this need shall be clearly indicated in the Comp Book by construction phase, operation and duration. The designer will be responsible for preparing an estimate of the number of hours the troopers will be required and the dollar compensation and indicate this in the Comp Book.

Staffing needs shall be estimated and detailed by considering the requirements of each construction operation, the MOT plan for that phase, and the duration of the operations. Short-term closures, diversions of

traffic, or restricted maneuvers may require limited officer use or none at all. Long-term work zones set up over long distances of alternate work activity and inactivity will almost always require periods of officer use to control traffic speed for the protection of workers, motorists, and equipment. Each construction operation and its respective work zone traffic control plan must be analyzed with respect to the work zone speed limit, type of operation, and length of work zone and duration of the conditions. The total number of estimated officer man-hours for the project shall be determined by adding up the requirements for each phase of the operation. This estimate is used to determine the budget to be encumbered for that project.

USE OF AGREEMENT - PROCESS FOR USE

STEP-BY-STEP PROCESS

After a decision has been made by FDOT that a patrolling officer is needed on a particular project, the following steps are necessary:

1. An estimate of the number of man-hours is necessary to allow for the necessary funding to be handled internally. This estimate should be made as early as possible to allow for this process.

For Construction Projects: Long-range estimates should include this in the construction cost estimates on all projects where use is anticipated. At completion of the plans, an updated estimate should be provided to the District Production Director's office so that phase 58 construction funding is programmed. Also the estimate of hours and dollars must be entered into the CES using this pay item:

999 102-A SPEED AND LAW ENFORCEMENT OFFICER, STATE FURNISHED, NON BID ITEM, MH

A=Contract Type (Between FDOT and the Law Enforcement Agency)

1=Central Office Statewide Contract

2= District Contract

This must be done so that money will be retained in the work program. If one of these pay items with estimated quantities for hours and

dollars is not placed in CES, construction will not be able to encumber funds to pay the FHP.

For Maintenance Projects: Program funds for the FHP contract using phase 78. The funds for this will come from maintenance contract dollars.

2. As plans are developed, reviews of maintenance of traffic plans must be held to determine the extent of need. These reviews should include, at least at the Phase III review, a meeting with FHP to discuss their involvement. At this time, the project schedule should also be discussed, as FHP will coordinate their officer's schedules to meet our project needs.
3. Immediately following contract award, allowing for sufficient processing time, a Letter of Authorization (LOA) will be submitted for the total estimated cost of the patrol officer's use on a specific project. The District's assigned Contract Manager should issue this LOA. Normal LOA processing will apply. Use the LOA form.
4. To actually begin use of an officer, the FDOT Project Administrator or Maintenance Engineer is to notify the FHP's District Commander a minimum of two weeks in advance of the scheduled use. Unscheduled needs require a minimum of 24 hours notice. Canceled uses require two hours prior notification. If a scheduled officer is not needed because of weather, changed work activities, etc., the officer will be reimbursed for a maximum of two hours of work (see more details in copy of Scope of Services attached).
5. The officer will coordinate his work activities with the FDOT project designee on site. The officer's time will be monitored through radio contact with his local office and through submitted daily activity reports. The daily activity reports will reflect the specific financial project number involved, contract no. and all activities while on duty. The FHP office will hold these daily activity reports available for our review. The FDOT project designee will record the officer's time and project activities. In the event that the sign-out location is closed, an

email to the FDOT project designee is acceptable for purposes of verification for hours worked.

6. FHP will then submit to the Project Administrator or Maintenance Engineer a summary invoice based on a 4 week billing period, with supporting documentation per officer, per project (financial no.) with summary of man-hour charges. These payments will be deducted from the advanced funding and handled internally by transfer.
7. FHP will also provide quarterly reports to FDOT State Construction Office summarizing work zone patrol activities.
8. Districts should report annually to the FDOT State Construction Office, or more frequently if needed, on their support of continued use of the officers as contracted through the Master Agreement. This information will be used to modify the agreement if necessary.

The Master Agreement contains more detailed information on the total process along with standard contract language.

RECORD KEEPING/AGREEMENT EVALUATION

As stated earlier in this guide, the FHP will report quarterly on their activities to the FDOT State Construction Office. The district to determine effectiveness of the officer's use should evaluate these reports.

Review and evaluation by Central Office should determine the statewide benefits of continued renewal of the Agreement. Any concerns should also be shared with FHP both at the District and State levels.

Work zone accidents, recorded speeding violations, and other similar information should assist in future TCP development.

OTHER USE OF OFFICERS IN WORK ZONES NOT COVERED BY AGREEMENT

INCLUDED IN TCP WITH OFFICER PAY ITEM (102-10)

This pay item is for a traffic control officer. Please consult the Basis of Estimates Manual before using.

This pay item should not be used unless an officer is needed as described in Section 102 of the FDOT Specifications.

CONTRACTOR (FHP) ELECTED USE OF OFFICERS

The contractor may require other law enforcement services to assist with traffic control when setting up MOT plans, moving construction equipment and performing construction operations that are potentially hazardous to motorists. These services should be designated in the contractor's MOT plan and the costs for these services shall be included in the specific item of work or in the contract pay items for maintenance of traffic (Lump Sum MOT). Pay items and estimated man-hours for these contractor required services are not to be included in the Department's contract pay item for law enforcement services. The contractor will hire and pay these officers.

RULES TO BE FOLLOWED BY ALL OFFICERS ON FDOT PROJECT

- The FHP Troop Commander and local County Sheriff will be invited to the pre-construction conference where the MOT plan will be thoroughly discussed with the Contractor. The duties and responsibilities of the Contractor, DOT or Consultant inspectors, and the police officers in implementing the MOT plan will be laid out.
- Anytime the work zone is barricaded or coned off; troopers assigned to an On-Duty detail at a rural area work site will place his or her patrol vehicle inside the barricaded or coned area. The vehicle, if at all possible, will be placed on the emergency shoulder in a position that allows the trooper to monitor traffic and be in a position from which the motoring public can assume that the trooper is readily able to take appropriate enforcement action. When possible, troopers should engage in mobile patrol operations within the immediate work zone.
- Any trooper assigned to an urban area, On-Duty detail may place their patrol vehicle outside the cones to warn traffic of the impending highway construction zone. However, at no time should a patrol vehicle be placed in a lane of travel.
- At no time will any trooper park the patrol vehicle at a highway construction site with their hood open-this does not provide the

trooper with an opportunity to take immediate enforcement action and sends a message to motorists that the trooper will remain stationary regardless of a violation.

- If the On-Duty FHP or other law enforcement officer receives instructions from the Contractor that are inconsistent with their assigned duties and/or are not consistent with the MOT, they will contact the FDOT Engineer for clarification.
- When escorting a moving operation, law enforcement vehicles should refrain from traveling in the traffic lanes. When the construction vehicles are in the lane of travel, the rear-most vehicle should be the truck-mounted attenuators (TMA); law enforcement vehicles should be placed on the emergency lane or grass shoulder.
- Whenever the FHP approves a trooper for an Off-Duty/On-Duty job, each officer must be trained in the appropriate MOT regarding lane closures and other safety precautions for the detail. Training documentation will be maintained at the FHP district level.
- To ensure all safety procedures are followed, the Troop Commander or their designee will periodically visit highway construction sites in their area. This visit should be coordinated with the FDOT Engineer. Additionally, troopers and supervisors should report any non-conformance to the MOT to the FDOT Engineer.
- To improve communication, the FHP will participate in meeting with the FDOT construction and maintenance Engineer's at their quarterly meeting. FDOT will make available copies of the Design Standards Index 600 and project MOT plans to FHP.

IN CONCLUSION

This guide including attachments has been prepared to assist the user in the process as has been detailed above. Any recommended revisions or additions should be directed to the Construction Engineer in the State Construction office.
