## Specifications / RFP

### **5-4 Errors or Omissions in Contract Documents.**

Errors and omissions discovered in the plans or specifications are the total responsibility of the Design-Build Firm. The errors and omissions shall be brought to the attention of the Engineer of Record as well as the Engineer. Resolution of the question by the Engineer of Record is intended, and will be at no additional cost to the Department. All such modifications are subject to approval of the Engineer.

Errors or Omissions ≠ RFI

## Specifications / RFP

### 5-1 Plans and Working Drawings

#### 5-1.4 Shop Drawings

**5-1.4.8 Modifications for Construction:** Where the Engineer allows the Contractor to make modifications to the permanent works for the purposes of expediting the Contractor's chosen construction methods, the Contractor shall submit proposals to the Engineer of Record for review and approval prior to modifying the works. Submit proposals for minor modifications under the shop drawing process...

Minor modifications are those items that, in the opinion of the Engineer, do not significantly affect the quantity of measured work, or the integrity or maintainability of the structure or its components...

Major modifications are any modifications that, in the opinion of the Engineer, significantly affect the quantity of measured work, or the integrity or maintainability of the structure or its' components... (...) Provide signed and sealed revised sheets to the Engineer for any such revisions to the Contract plans prior to submitting shop drawings.

The Engineer's decision on the delineation between a minor and a major modification and the disposition of a proposal is final.

## Specifications / RFP

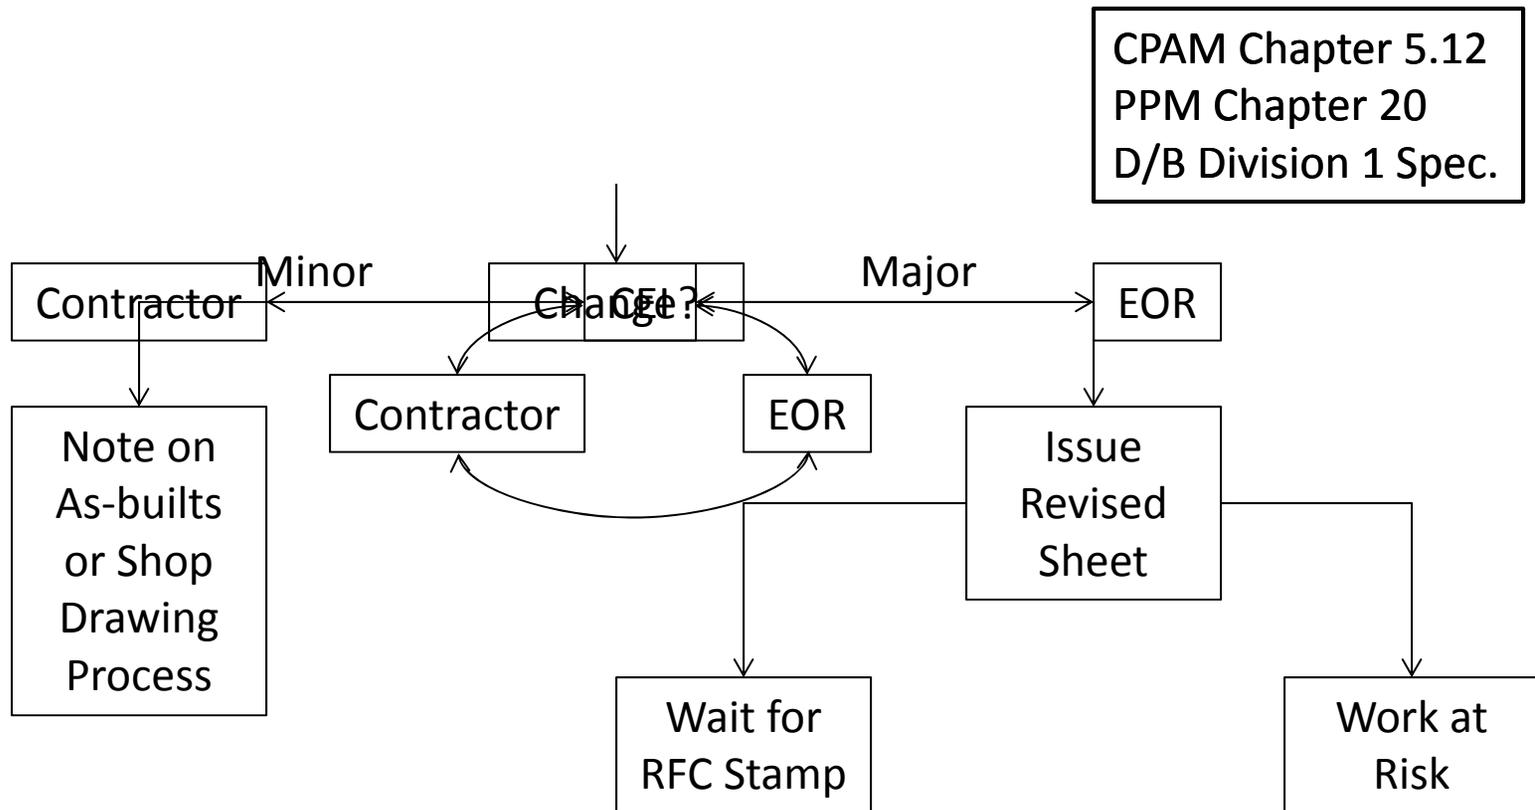

### **5-1 Plans and Working Drawings**

**5-1.6 Corrections for Construction Errors:** For work that the Contractor constructs incorrectly or does not meet the requirements of the Contract Documents, the Contractor has the prerogative to submit an acceptance proposal to the Engineer for review and disposition. The acceptance proposal shall describe the error or defect and either describe remedial action for its correction or propose a method for its acceptance. In either case, the acceptance proposal shall address structural integrity, aesthetics, maintainability, and the effect on Contract Time. The Department will judge any such proposal for its effect on these criteria and also for its effect on Contract Administration.

When the Engineer judges that a proposal infringes on the structural integrity or maintainability of the structure, the Contractor's Engineer of Record will perform a technical assessment and submit it to the Engineer for approval. Do not take any corrective action without the Engineer's approval.

Carry out all approved corrective construction measures at no expense to the Department.

Notwithstanding any disposition of the compensation aspects of the defective work, the Engineer's decision on the technical merits of a proposal is final.

CEI ROLES

- Move inlet 2' at same elevation?
- Move 100' and 3' in the air?
- Move 8' at same elevation?

CEI ROLES

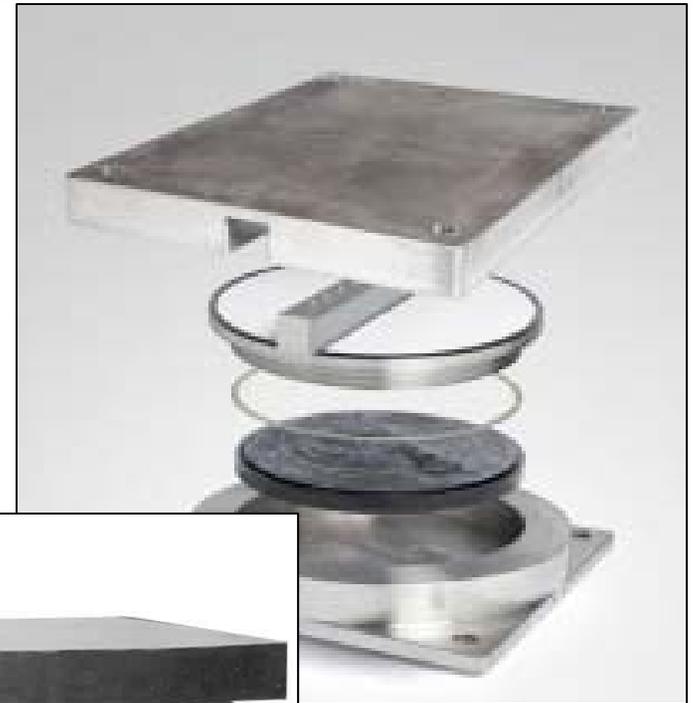

- Core drill misaligned anchor bolt blockouts?

CEI ROLES

- Switch to neoprene pads?
- Field weld bearing sole plate?
