

**THIS MEMO IS EXPIRED**

**February 4, 2000**

**MEMORANDUM NO. 06-00**

**TO: DISTRICT CONSTRUCTION ENGINEERS  
DISTRICT FINAL ESTIMATES ENGINEERS**

**FROM: Greg Xanders, State Construction Engineer**

**COPIES: Tom Aldridge, Charles Goodman**

**SUBJECT: PAYMENT ON FUEL & BITUMINOUS ADJUSTMENTS**

In order to clarify the method of payment for Fuel & Bituminous Adjustments, I offer the following:

It was acknowledged by Industry, FHWA and DOT during the specifications review that there could be a significant variation in the amount of adjustment on a day by day basis. However, these possible variations were acceptable to all parties.

Therefore both the Department and the Construction Industry are amenable to the quantities as shown on the monthly and progress estimates to be accepted as final payment for the Fuel & Bituminous adjustments. No adjustments will be required at the end of the project to adjust for the percentage of RAP used in each design mix or other such issues requiring adjustments in the past.

Thank you for your help in this matter. I am hopeful that this will help to reduce some of the paperwork. If you have any questions please contact David Sumner at SC 994-4198.
