DCE MEMORANDUM NO. 11-16

(FHWA Approved: 8/23/2016)

TO: DISTRICT CONSTRUCTION ENGINEERS

FROM: David A. Sadler, P.E., Director, Office of Construction

COPIES: Phillip Gainer, Amy Tootle, Bob Burluson, Nick Finch, Rafiq Darji, Tim Lattner

SUBJECT: GROUND-IN RUMBLE STRIPES

In accordance with [Roadway Design Bulletin 16-07](#), coordinate with the State Roadway Design Office (SRDO) for all projects that include Ground-In Rumble Stripes. This memorandum applies to all contracts let prior to March 1, 2017 that include the following Ground-In Rumble Stripe pay items:

- 546-72-52 (Rumble Stripe, Ground-In, 16" Center Line)
- 546-72-53 (Rumble Stripe, Ground-In, 8" Edge Line)

This memorandum also applies to Lump Sum projects that include the above referenced work.

Provide SRDO (see contact below) with an electronic copy of the plans (or web link to plans set) along with an estimated start date for the grinding operation. Also, provide SRDO with the contact information for the assigned Construction Project Manager and Design Consultant Project Manager.

Based on timeframes and context, SRDO will prioritize projects and determine appropriate locations for the installation of the above mentioned rumble stripes within the limits of each project. A table will be provided to the Districts with specific beginning and ending station numbers. In order to avoid revisions to the plan sheets, changes to the original plans will be addressed in the as-built plans. Final quantities placed will be final field measured for payment.
