 Phone Number: 386/961-7416
 Fax: 386/961-7849

Proposal Number: T2366 42744915201, etc.

Question	Response
In reference to supplementary specification 7-28 E-Verify; We understand that the requires all employees of the prime contractor shall be vetted using the E-Verify system. However, does the specification also require the prime contractor E-Verify all employees working for material suppliers, subcontractors, engineers, etc, who are performing work at the job?	2/18/11 3:21 PM -- The prime contractor is required to use the E-Verify System. In accordance with the terms governing the use of the E-Verify system, a contractor can only use E verify to check its own new employees not current employees. The prime contractor is required to have all subcontractors or assignees use E-Verify for any employee working on the Department contract. Pursuant to the E verify system terms, a subcontractor/supplier/assignee can only check their own employee. So subcontractors, suppliers or assignees would have to check their own employees not the prime contractor.
2/16/11 5:00 PM - Question Period Closed	2/16/11 5:00 PM - Question Period Closed
