**FINPROJ NO(S): 42298715201 (\*)    FEDERAL AID NO: 1002054P**  
**MAJOR WORK TYPE: RESURFACING**

Question	Response
<p>Posted 6/16/2011 at 1:20 pm                      1) Item 0458 1-21 lists 2272 lf of bridge expansion joint to be sealed. The plans do not indicate the joint openings to be sealed. Is there an average joint opening to be used for bidding purposes. Also plan sheet 18 indicates a polymer header to be used at the expansion joints. The header is to be 12" wide but no depth is given. Is there an average depth to be sued for bidding purposes</p>	<p>Note : Responses made by Central Office in a clarification memo</p>
