District Address: District 5 Construction Office, located at 719 South Woodland Blvd, Deland, FL 32720

District Phone: (386) 943-5350

Proposal: T5481

Project: 240992-2-52-01

Letting Date: 6/19/2013

Localtion: CENTRAL OFFICE

Description: SR 5 (US 1) AND SR 442

Question: 4023: There appears to be an equal amount of road construction work and signalization work on this project. Can a contractor that is prequalified in drainage, flexible paving bid on the project? Posted: 5/20/2013 2:44:45 PM

Answer: Contractors must be prequalified in at least 50% of the work classes of a project based on the budget amount. A contractor with Drainage and Flexible Paving only has 30% of the project. A contractor that has Drainage, Flexible Paving, Portland Cement, Grading, and Hot Plant-Mixed Bituminous Course would still only have 38%. Mathematically, contractors must have Traffic Signals in order to bid this project. Status: ANSWER PUBLISHED
