For example - The Compbook-Rev1 states that the summary of Performance Turf is 51,832 however the revised plans and the Project Edit Report reflect 37,298. Which is correct????

---

Answer: The Questioner should refer to Plan Revision 1 dated 5/23/2014 where the quantity for Performance Turf is 51,832 as you have stated in your question. The other 3 items can also be found within the same Plan Revision dated 5/23/2014.
