Question: 7447: HDPE Class II and Polypropylene Pipe were not included in the optional materials tabulation for all pipe runs. Both HDPE Class II and Polypropylene Pipe are approved for 100 year DSL applications. We are asking for both HDPE Class II and Polypropylene Pipe to be allowed / included as an optional pipe material for all pipe runs so the contracting community can bid accordingly. We have performed a cover analysis and the min/max cover requirements per FDOT specifications are met for all runs.
