Question: 10616: Are all areas of construction (ie. MOT, Erosion control, Pavement, Walls, Drainage, Curb & Gutter, Sidewalk and Performance Turf) in the roadway plans quantified in the summary of quantities for this project? Posted: 6/5/2015 8:46:21 AM

---

Answer: As a Lump Sum project, all areas of MOT, Erosion control, Pavement, Walls, Drainage, Curb & Gutter, Sidewalk and Performance Turf construction are quantified on the summary of quantities sheets and summary of drainage structures in each set of contract plans. These areas are summarized for informational purposes only and does not relieve the contractor of the responsibility to determine the actual quantities for bidding purposes.
