Question: 13380: There's a pay item for standard ped detectors (665-1-11), and another pay item for accessible ped detectors (665-1-12). Signal plan sheets T-4, T-5, & T-7 notes audible buttons are required. Is this to mean the Bulldog Push Buttons are to be used (audible / tone only)? Or, are the Navigator systems to be used (audible / talking) which are considerably more expensive. Please clarify designer's intent for these 3 intersections.

---

Answer: The intent of the plans is for the bulldog push buttons (audible/tone only) to be utilized and not the navigator (audible/speaking) style.
