District Address: District 4 Construction Office, located at 3400 West Commercial Blvd. Fort Lauderdale, FL 33309

District Phone: (954) 777-4130

Proposal: T4432  
Project: 435091-1-52-01  
Letting Date: 3/30/2016  
Localtion: CENTRAL OFFICE  
Description: SR 834 (SAMPLE RD)

---

Question: 13565: The existing mast arm configuration at the North East corner of the intersection includes a double mast arm, serving North Bound Dixie Highway and West Bound Sample Road. However, the bid documents indicate on Sheet T-4 at the North East Corner a new single mast arm serving the North Bound Dixie Highway traffic.

Posted: 3/4/2016 3:37:33 PM

How will the West Bound Sample Road traffic be signalized?

---

Answer: The westbound traffic along Sample Road will be controlled by the signal heads proposed on the All-Aboard Florida Railroad truss. This is the "ultimate" scenario. Until All-Aboard Florida has installed the truss, the existing NE corner of this intersection has a dual-arm mast arm, which faces both westbound traffic on Sample Road and northbound traffic on Dixie. This will remain in place and active. The proposed single-arm mast arm facing the northbound traffic on Dixie will be installed, per plan (far away from the existing dual-arm mast arm not to be in conflict). Leave the existing dual mast-arm on the NE corner in place until All-Aboard Florida completes their work.
