ADDENDUM NUMBER TWO

FINANCIAL PROJECT NO.: 423934-1-52-01
DISTRICT CONTRACT NO.: E1H28
CHARLOTTE COUNTY

Bidders you are being notified of the following questions and answers:

QUESTION:

Does the cover over the pumps have to look "pretty". Can we use a shed type roof on purlins or do we have to have the underside nice and flush like some new gas stations.

ANSWER:

The design and structure of the canopy should be within '2.0 Design Criteria, Section A' of the Scope of Work. The Department has similar structures throughout the district, you can call any of our Maintenance Operations Managers and make arrangement to view the roof canopy over the propane tanks.

QUESTION:

Why is the fascia 26". If we go the route above it would be only 14" and less wind area.

ANSWER:

We are trying to stay consistent with the design of the canopies in our district and what we asked for meets the criteria.

QUESTION:

Could we paint the underside of the roof which would be exposed. We would also paint the purlins.

ANSWER:

Yes. Painting should be done in accordance with '2.0 Design Criteria, Section D'.

QUESTION:

Can we give you a generic cover which we would design and cover the dispensers during a rainfall.

ANSWER:

The Design of the structure should be in accordance with the Scope of Work.

QUESTION:

Will you be able to furnish an up-to-date survey in CAD format?

ANSWER:

We don't currently have one in CADD format, but Survey and Mapping is working on one.

QUESTION:

Are you flexible with the 30 day turnaround from notice to proceed? The reason for the inquiry is that most of this time will be consumed by design and permitting approvals.

ANSWER:

The awarded vendor will be given 60 day from the issuance of the Notice to Proceed to complete the job.

Acknowledge receipt of this addendum in the space provided on the proposal.

Cheryl L. Sanchious
