

Questions and Answers:

ITB E1M75 - Remodeling of the Maintenance Crew Building

Question:

In regards to Project # E1M75, I am inquiring about the 5 year experience requirement. Does that mean 5 years experience as a GC or 5 years experience in remodeling? In other words if a contractor has more than 5 years remodeling experience but less than a year being certified as a GC, can the contractor bid on this project?

Answer:

The Bidder would need 5 years in both. They will need to have had their General Contractor (GC) license for 5 years and have 5 years experience doing remodels.
