

Florida Department of Transportation

CHARLIE CRIST
GOVERNOR

1109 South Marion Avenue
Lake City, Florida 32025

STEPHANIE C. KOPELOUSOS
SECRETARY

June 23, 2010

To Companies Interested in this project:

Addendum #6

Attn: Shortlisted Proposers:

**BBI Construction Management Inc./4M
Peter R. Brown Construction Inc./CRA Architects
R. M. Williams Construction, Inc./Fleischman-Garcia Architects**

Project #: E2N44

Restoration of Historic Train Depot
State Financial Project # 210764-2-52-01

- **Single phase electrical power supply versus three phase electrical power supply:**

It is permissible to use a single phase electrical power supply instead of three phase power supply as long as the Engineer/Architect of Record can meet all the requirements of the project. However, a single phase power supply may not meet the need for the required capacities, nor may it be available for the capacities required. The designer is to determine what equipment is required to meet the electrical needs.

- **In Section 8 -1 of the Division 1 which is a part of the RFP, it states as follows:**

8-1 Subletting or Assigning of Contracts.

Do not, sell, transfer, assign or otherwise dispose of the Contract or Contracts or any portion thereof, or of the right, title, or interest therein, without written consent of the Department. If the Contractor chooses to sublet any portion of the Contract, the Contractor must provide a written request to sublet work on the Certification of Sublet Work form developed by the Department for this purpose. **With the Engineer's acceptance of the request, the Contractor may sublet a portion of the work, but shall perform with his own organization work amounting to not less than 40% of the total Contract amount.**

The requirements for the work of Section 8 of the Division 1 Design Build Specifications governs the amount of work that the Contractor shall perform with his own organization.

- **Division of rooms:**

A physical separation that can be secured shall be constructed between the meeting room and other parts of the building including the restroom areas. The Contractor shall account

for in his bid that the walls on the east end of the building adjacent to the fireplace and parts of the ticket window walls including the ticket window may be required to be refinished and remain in the current locations.

Please sign, date and email a copy of this addendum back to me today to indicate receipt. A copy of each addendum is to be returned with your bid package.
