ANANTH PRASAD, P.E.
SECRETARY

August 6, 2014

ADDENDUM NO. 1

To: ALL PROPOSAL HOLDERS
FINANCIAL ITEM NUMBER: 42378117213
CONTRACT NUMBER: E3N38
DESCRIPTION: The improvements under this District Contract consist of cleaning and coating of various bridges in Escambia County.

BIDS TO BE RECEIVED: August 14, 2014

If you are a PROPOSAL HOLDER, this is your authorization to make the following changes to the plans and specification packages you now have for the subject project:

The following questions and clarifications have been made for the above referenced project:

Question 1 - Is Railroad Flagger Needed? Is Railroad Insurance Needed.

Response 1 – Per FDOT Railroad Coordinator (Ed Chadwell) a Railroad Flagger will not be required and no Railroad Insurance will be required.

Clarification of contaminated Waste Water – Regarding the Waste Water Generated during the course of the cleaning operations:

- Waste water generated during surface preparation (water cleaning) operations shall be properly collected, handled, and stored in accordance to FDOT 561-11 of the Florida Department of Transportation Standard Specifications.
- Waste water shall be identified in accordance to FDOT 561-11.4 Waste Identification; with the exception that once the waste stream is sampled, tested, and classified additional testing shall be performed every 30 calendar days and/or as directed by the Engineer.
- Prior to sampling, testing, and disposal, waste water shall be filtered through multi-stage filtration systems with a minimum filtration capacity of 5 microns or less. Water filtration shall be performed to remove all solid residues from waste water prior to being placed into storage and/or shipping containers.
- Waste water shall be filtered until test results come back below, State and local waste water regulations.
- Prior to disposal the Contractor will make arrangements with a local publicly owned city or county treatment works, sanitation company, or other permitted facility that is acceptable and approved by the Engineer.
- The Contractor shall provide the Engineer with documentation that the receiving disposal facility is properly licensed and/or approved to the satisfaction of the Engineer.
- The Contractor shall maintain onsite records of all waste water testing results. Prior to shipping and disposal, all testing results shall be submitted and verified for approval to the satisfaction of the Engineer.
- The Contractor shall maintain a manifest of all accumulated waste water. These records shall be updated on a daily bases during the course of water cleaning operations. The Contractor shall provide the Engineer with a copy of the shipping manifest prior to offsite removal of waste water for disposal. Contractor shall keep track of the

volumes of water used and collected and provide to the Engineer. Contractor shall also document and provide the volume of water disposed at location where arrangements are made to dispose of.

Please use this revision when preparing your bid.

Sealed bids will be received until 2:00 p.m. local time on August 14, 2014 in the District Three Procurement Services Conference Room, Room 230, Administration Building, 1074 Highway 90, Chipley, Florida.
