**SCOPE OF SERVICES**  
**ASSET MAINTENANCE CONTRACT**

(REV. 01-19-2010)

**CONTRACT ADMINISTRATION**

**Contract Number:** E4L77-RO  
**Financial Project Number (s):** 41500357201

**OBJECTIVE**

This performance-based contract requires the inspection, management and performance of the maintenance of all components of the transportation facility as identified herein. All such maintenance activities the Department's Maintenance Division formerly performed within the limits of this contract are now to be performed by the Contractor, unless otherwise exempted in this contract. Rather than the Department directing specific work as in most traditional maintenance contracts, this performance-based contract requires the Contractor to continually produce a quality product. The Department will continually evaluate the Contractor's quality of work performed and if applicable rules and procedures were followed to achieve results. The Department is entrusting the Contractor to care for and maintain select roadways, structures, and facilities of Florida's state roads and fully expects the Contractor to take pride in performing a high level of maintenance. The continual quality of the maintenance of the roadways, structures, and facilities will be a direct reflection, under public scrutiny, of the quality and integrity of the Contractor. The roadways, structures, and facilities included in the scope of this contract are as follows:
