

ADDENDUM ONE

CONTRACT No. E-5J31

FINANCIAL No. 420306-3-72-01

COUNTIES: Orange and Osceola

LETTING DATE: December 5, 2006

QUESTION: Reference pay item # E120-10-5 Clearing and reshaping of canal could you please provide a what is included in the scope of work. (I.E.) hauling of spoil materials? I have been unable to locate this pay item in the road and bridge standards.

ANSWER:

Pay Item E-120-10-5 is a maintenance pay item and, therefore, not found in the spec book. It refers to Standard Maintenance Special Provision Section ME120-50, Roadside Ditch or Canal Cleaning and Grading which is found on Page 10 of the specification package.

Subsection ME120-50.1 Description defines the scope of work. It is anticipated that the majority of the material removed, if not all, will be unusable and have to be hauled. Subsection ME120-50.5 Basis of Payment states that the price per linear foot will be full compensation for all work specified.
