

Amendment #1
Financial Project #405506-8-52-01
Contract # E5K75

The Request for Proposal for the above reference project is amended as follows:

Item #1

Section V, A. paragraph 1 (page 12 of 56) shall read:

The services performed by the Design/Build Firm shall be in compliance with all applicable Manuals and Guidelines including the Department, FHWA, AASHTO, and additional requirements specified in this document. Except to the extent inconsistent with the specific provisions in this document, the current edition, including updates, of the following Manuals and Guidelines shall be used in the performance of this work. Current edition is defined as the edition in place at the date of advertisement of this contract **with the exception of the Structures Manual. The effective date of the July 2007 Structures Manual was July 31, 2007. This edition of the Structures Manual will govern.** It shall be the Design/Build Firm's responsibility to acquire and utilize the necessary manuals and guidelines that apply to the work required to complete this project. The services will include preparation of all documents necessary to complete the project as described in Section I of this document.

Item #2

Section IV, C, 5. paragraph 3 (page 36 of 56) shall read:

The objective is to obtain approved stormwater treatment/attenuation design. This service shall include, but is not limited to the following:

- Provide for a drainage design and stormwater management system that can be accommodated within the right-of-way owned by the Department. The right-of-way available to the Design/Build Firm for stormwater management facilities is shown on the right-of-way maps, an Attachment to this RFP, **with the exception of pond 7A also known as parcel 103. The Department has negotiated this pond to be relocated so that a joint use pond can be utilized. The new location is depicted on the attached drawing, sketch and legal description. The joint use pond will be constructed by the developer before November 1, 2007. The design/build firm shall design and construct a connection to the joint use pond. The design build firm may only drain the equivalent amount of stormwater runoff to the joint use pond as depicted in the design for Pond 7A. The design/build firm will not construct pond 7A.**
- Perform design and generate construction plans documenting the permitted systems function to criteria.
