

**AMENDMENT 2**  
Contract No. E5K77  
Financial Project Number 416391-1-52-01  
North Expansion of ITS System  
I-95 from US 1 (Volusia County) to US 1 (St. Johns County)  
SR 9 (Interstate 95)  
Flagler County

*Amendment 2 to the Request for Proposal*  
*Page 58 of 123*

The purpose of the amendment is to change how the RVSD connects to the Layer 2 Switch.

The current RFP states, “The VDS systems shall interface with the local hub via a 170E controller. The firmware for the 170E controller will be the Bitran’s B238 I-95.”

The statement is removed and replaced by the following:

The VDS systems shall interface with the local hub via a terminal server.
