The FAMU Construction Management Development & Bond Guarantee Programs will provide comprehensive instructions in the areas of Business Management, Business Operations and Project Management for companies in construction and construction related industries. The CMDP will enhance the management and technical skills of your firm through classroom instruction, technical assistance and on-the-job training.

The courses offered will focused on three modules; Business Management, Construction Accounting & Math and Construction Operations. Cost of instruction including study materials is \$190.

The programs are designed to assist Small and Disadvantaged Business Enterprises (S/DBE) to: (1) become FDOT Certified S/DBEs (2) develop construction and business management skills; (3) increase their ability to be bonded; and (4) prepare FDOT-certified S/DBEs for job opportunities.
