

Free Bonding Workshop for DBEs

**Invited Guests: P.A. Wallace & Associates, Inc. and
USDOT Small Business Transportation Resource Center (SBTRC)**

Register at www.brgfl.com

Join Blackmon Roberts and Beaver Street Enterprise Center (BSEC) in this workshop where you will learn the latest underwriting guidelines to obtain a bond, and the Federal financing and Bond programs available to you.

USDOT SBTRC Director, Ms. Adrianna Clark, will walk us through USDOT's Short Term Lending Program, and the Disadvantaged Business Enterprise American Recovery and Reinvestment Act Bonding Assistance Reimbursable Fee Program (DBE ARRA BAP).

P.A. Wallace & Associates, Inc. will give us an insider's view of the bond application process, its requirements, and available alternatives for those companies that do not qualify for a bond.

This is a great opportunity to learn about the bonding process and what bonding companies are looking for when you apply for a bond.

Disadvantaged Business Enterprises (DBEs), small, minority and women owned businesses are encouraged to attend. Even if you don't qualify for a bond, Blackmon Roberts Group will assist FDOT certified DBEs for free, to position your company to be bondable.

Please contact Blackmon Roberts Group for further information.
