SPECIAL TRAFFIC REGULATIONS

HEADLIGHTS Headlights must be used between the hours of sunset and sunrise. During other hours, lower beam headlights must be used when vision is reduced to 1,000 feet or less as well as during fog, smoke, and rain.

TRAFFIC SIGNALS "A right turn on RED is permitted with caution after stopping. A left turn on RED in also permitted with caution after stopping, from a one-way street onto another street which is one-way to the left. Either movement may be prohibited by a traffic sign for certain time periods or at all times."

FLORIDA SCHOOL BUS LAW All traffic must STOP when school buses are loading or unloading, except when buses are on the opposite roadway of a divided highway which has an unpaved space of 5 feet or more or a physical barrier between the roadways.

HIGHWAY CONSTRUCTION AND SCHOOL ZONES Florida Statute allows for citations issued for speeding in posted school or construction zones to be double the normally assessed amount.

TRAFFIC CONTROL DEVICES

PAVEMENT MARKINGS

It is UNLAWFUL to change lanes across any of the following marking patterns:

1. A double YELLOW solid line
2. A double WHITE solid line
3. A single YELLOW solid line on your side of a broken yellow line. (Exception-In cases 1 & 3, a left turn may be made with caution into an alley, private road or driveway when opposing traffic does not obstruct the turn and when driver's view is not obstructed.) A single WHITE solid line discourages crossing but does not prohibit crossing. A single YELLOW solid line has no official meaning although it is used by some jurisdictions on two-lane, two-way streets to discourage crossing.

STATE OF FLORIDA DEPARTMENT OF TRANSPORTATION

The intercity distances indicated here are provided by the Florida Department of Transportation, Transportation Statistics Office. Expanded and current lists of intercity mileages are available by accessing the FLORIDA DEPARTMENT OF TRANSPORTATION'S WEB PAGE AT http://www.dot.state.fl.us/ or in spreadsheet form from the Department of Transportation. These lists shall be used, when possible, in conjunction with the map for reimbursement purposes described in F.S.112.061(7)(d)2. Mileages are determined via selected state, county and city roads. Distances are computed along the shortest routing.

Florida's Map! More than just a map....

Dear Valued Florida Guest,
We are pleased and honored that you are visiting our state, and hope that your journey is both enjoyable and safe. We hope also that the state's official transportation map — Florida's Map! — will contribute in some meaningful way to the quality of your experience. We thought you'd like to know why we say that Florida's Map! is more than just a map. If you'll notice, Florida's Map! is distributed to visitors like you, free of charge, and for the second year at no expense to Florida's taxpayers. How is that possible? Florida's Map! is produced through an innovative public-private partnership between Florida's Department of Transportation, VISIT FLORIDA, private contractors, and perhaps most importantly, the map's sponsors. The free distribution of Florida's Map! is made possible through the generous donations of our sponsors who take pride in our state and have an acute interest in ensuring that your Florida visit is an enjoyable one. So, if Florida's Map! has been a valuable resource for you, we ask that you show your appreciation by visiting our sponsors — and don't forget to tell them you saw them in Florida's Map!

Sincerely,

Daniel W. Anderson, President
Anderson & Associates Int'l Consulting
General Contractor for Florida's Map!
