The railroad stations on this map do not necessarily reach all points indicated.

Information on the map was compiled from aerial photos taken in December, 1988, in cooperation with the U.S. Department of Agriculture, Forest Service; the Florida Fish and Wildlife Conservation Commission; the Florida Department of Environmental Protection; the Florida Department of Natural Resources; the Florida Department of State; and the Florida Department of Transportation.

All populations are taken from the 2000 United States Census.

This map shows public roads, railroads, highways, and other features. The railroad station symbols indicate only those that were surveyed as of December 31, 1988. All roads shown are publicly maintained.
