GRID NORTH AT TRIANGULATION STATION "GPS 1" IS 0° 49' 04" EAST OF TRUE NORTH  
 IN JULY 2005 MAGNETIC NORTH IS 4° 24' 00" WEST OF TRUE NORTH  
 ANNUAL MAGNETIC CHANGE IS 0.4" WESTWARD

This map was compiled from U. S. Geological Survey quadrangle maps, Florida Dept. of Transportation aerial photography completed Oct., 1995, General Land Office plats, inventory surveys and other available map data. This map was compiled using interactive computer graphic methodologies.

This map was prepared on the Lambert conformal conic projection, 1983 North American Datum, Florida system of coordinates, North Zone.

The railroad stations on this map do not necessarily denote the presence of a depot or like facility. It may be only a point, such as a platform or siding, designated for the receipt or delivery of freight.

No attempt has been made to show all drainage canals or ditches.

No claim is made for the basic cartographic source material taken from a work or works of the United States Government.

Due to the scale of this map, the Florida Department of Transportation assumes no responsibility for inaccuracies in road alignments, configurations of intersections or other related data.

Maps of this series are in the public domain. The maps are compiled and published using public tax maps and are copyrighted to prevent reproduction and resale for profit.

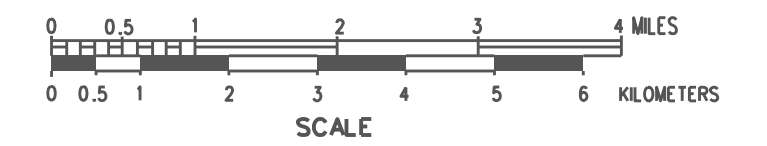

Corporate boundaries are determined using all available descriptions at the date of revision. The Florida Department of Transportation Surveying and Mapping Office is not responsible for inaccuracies resulting from unknown or unobtainable information.

All populations are taken from the 2000 United States Census. In 2000 the population of Gilchrist county was 14,437. There are 349 square miles in the county.

For the price and availability of this map, contact Maps and Publications, Florida Department of Transportation, Tallahassee, FL 32399-0450. Phone (850) 414-4050.
