This map was compiled from U.S. Geological Survey topographic maps, Florida Department of Transportation aerial photography, and other sources. The Florida Department of Transportation is not responsible for inaccuracies resulting from uncorrected or outdated data.

This map was compiled using interactive computer graphics technology.

This map was prepared on the Transverse Mercator projection, 1883 North American Datum, Florida system of coordinates, East Zone.

The railroad stations on this map do not necessarily denote the presence of a depot or other facility. It may be only a station, such as a siding or a siding, designated for the use of a train or other vehicle.

No attempt has been made to show all drainage canals or all roads.

All elevations are taken from the 2000 United States Census in 2000 the elevation of Osceola County was 171.000. There are 1,233 square miles in the county.

No scale is made for the basic cartographic source material taken from a work or works of the United States Government.

Due to the scale of this map, the Florida Department of Transportation assumes no responsibility for inaccuracies in road alignments, configurations of intersections or other related data.

Corporate boundaries are determined using all available departments on the basis of records. The Florida Department of Transportation Surveying and Mapping Office is not responsible for inaccuracies resulting from uncorrected or outdated information.

Maps of this office are in the public domain. The maps are compiled and published using public tax records and are copyrighted to prevent reproduction and resale for profit.
