FDOT and GEICO Remind Motorists to use "Safe Phone Zones" during Labor Day Weekend Travel

*Visit Welcome Centers, Rest Areas and Service Plazas over holiday weekend
to text and use your mobile device safely*

Tallahassee, FL – As Floridians prepare for travel during Labor Day weekend, the Florida Department of Transportation (FDOT) and GEICO remind motorists to avoid driving distracted. Motorists can safely and conveniently use their phones and other mobile devices for calling, texting, navigating and accessing mobile apps at the 64 GEICO-sponsored Safe Phone Zone locations.

FDOT Assistant Secretary for Engineering and Operations Brian Blanchard said, “We’ve seen a record number of travelers on Florida roads every major holiday weekend this year and we expect the trend to continue this Labor Day weekend. Our number one priority at the Florida Department of Transportation is safety, so we are proud to partner with GEICO in continuing to provide Safe Phone Zones throughout the state. We encourage all drivers and passengers to buckle up, follow traffic laws and to put the phone down and focus on the road.”

GEICO sponsorship of Rest Areas, Welcome Centers and Service Plazas as Safe Phone Zones began in 2015 and motorists are made aware of upcoming locations via highway signs in advance of each facility. FDOT and GEICO recently added more signage at ten of the busiest Welcome Center and Rest Area facilities, reminding motorists when they leave, "Don't Text and Drive," as they are exiting the Safe Phone Zone. GEICO provides similar support in six other states to promote stopping at Rest Areas to avoid texting while driving: Arizona, Illinois, New Jersey, New York, Texas and Virginia.

“We're proud of our longstanding Safe Phone Zone partnership with the Florida Department of Transportation, which has no doubt removed countless would-be distracted drivers from the state's highways,” said Shawn Burklin, GEICO senior vice president. “Safe Phone Zones are an important part of promoting traffic safety because they give drivers a place out of harm's way to catch up on texts, emails and more.”

GEICO offers tips on ways to avoid distracted driving at www.SafePhoneZone.com as well as on its [GEICO More](#) branded content hub.
