FDOT reconstructing Hogan's Creek Bridge on North Washington Street *Traffic detour starts Tuesday*

Jacksonville – Construction begins Tuesday on a Florida Department of Transportation (FDOT) project to reconstruct the bridge over Hogan's Creek at North Washington Street and East Union Street. The bridge is located near the western end of the Mathews Bridge Expressway.

A 24-hour-a-day road closure will be in effect starting Tuesday morning at 7 a.m. and will last for the duration of the project, approximately seven to 10 months, weather permitting. The detour for motorists traveling north on Washington Street is Beaver, Market, Church, Catherine and Duval streets, A. Philip Randolph Boulevard and Union Street. The detour for motorists traveling south on Washington Street is Union, Newnan and Church streets. The northbound pedestrian detour is west on Union, north on Liberty and east on Union streets. The southbound pedestrian detour is west on Union, south on Liberty and east on Union streets. (See attached map for project area and detours.)

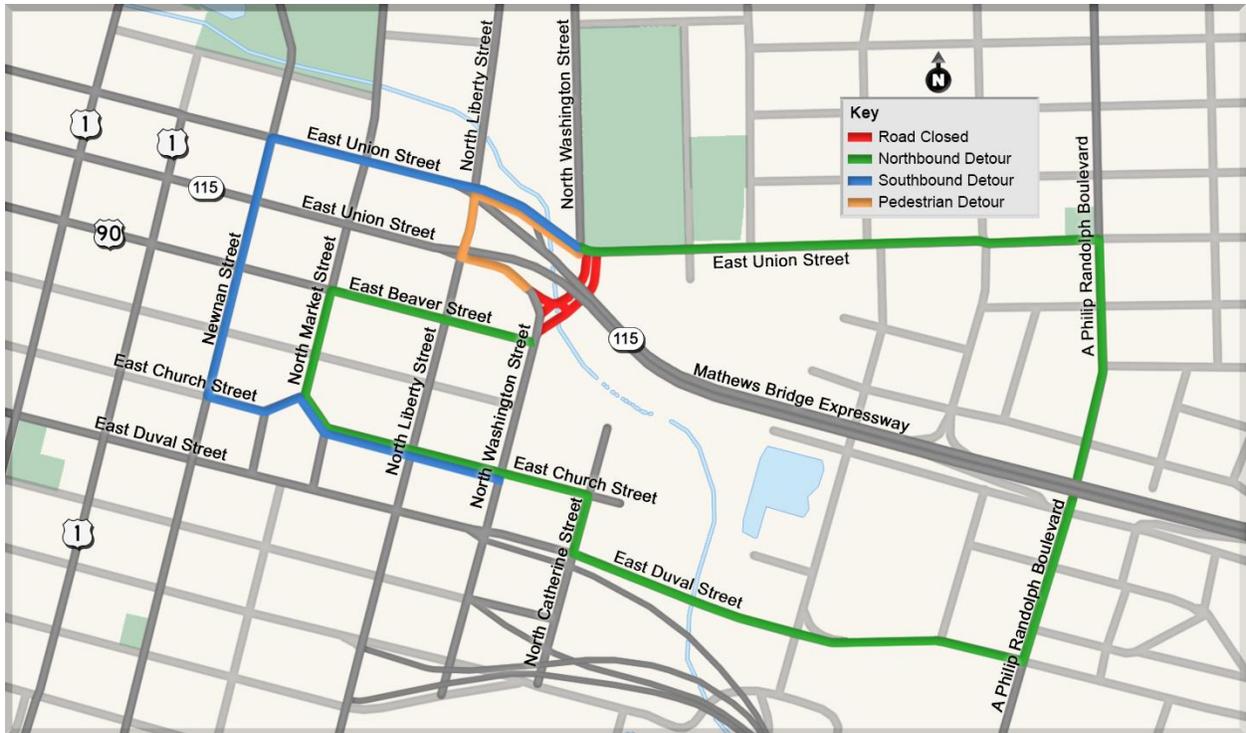

The project includes replacing the existing bridge box culvert with a single span culvert, resurfacing the roadway and reconstructing existing sidewalks.

FDOT hired Brothers Construction, Inc. of Jacksonville to complete the project for \$1.7 million. It is scheduled to be complete in summer 2016.

For more information regarding this or other FDOT projects around the Northeast Florida area contact Debbie Delgado at 904-360-5457, Debbie.Delgado@atkinsglobal.com or visit www.nflroads.com.
