

# A New FDOT Website!

The FDOT website has recently been redesigned by internal Department staff. The new site is dramatically simplified and achieves greater consistency in the way information is presented. The changes are summarized below followed by sample pages highlighting features of the new design.

## New Design Features

### 1. **Prominent Search Box**

If you know what you're looking for, use the search box to find it quickly. You can sign up for email updates, connect to FL 511 travel information, switch to a new mobile view or check out the site map in this same area.

### 2. **Simplified Main Navigation**

Six primary menu selections help you find out more About FDOT, Contact Us, locate Maps & Data, connect to one of our Offices (see sample page), check out our Performance or get information on Projects. The side navigation has been removed to further improve the site. "Bread crumbs" at the top of the page (see sample page) will allow the reader to move more easily within the site.

### 3. **Rotating Banner**

Our latest news is prominently displayed in new eye-catching banners that will rotate among the five latest items.

### 4. **Customer Focus Areas**

Looking for travel or commuting information? Are you a Business Partner? How about government resources? We've grouped information in these customer areas to make it easier for you to find what you're looking for.

### 5. **Public Involvement**

We have many opportunities for you to become involved by attending meetings and events or providing input on current and future projects. We look forward to seeing you at one of these events or hearing from you.

### 6. **Travel Resources / Florida Initiatives**

Just click on one of the handy graphics to get to our Facilities Map, SunPass Program, FL 511 Travel Updates or browse through other Florida Initiatives currently underway.

### 7. **Popular Topics**

We'll maintain a handy list of our top ten popular topics so you can quickly look through the list for items that may be of interest to you.

### 8. **Social Media Links**

Yes, we're on Facebook, Twitter, YouTube and other social media. Why not follow us, like us or just check us out?

### 9. **The Footer**

The new footer common to all pages includes some handy links to contact us, connect to employment information, review our web policies and notices, and a few other items.

## FDOT invites transportation investment in Florida to grow jobs

Secretary Prasad wants to ensure our partners know the State of Florida is open for business. Now is the time to invest in Florida's transportation future as we help initiate private sector employment. [More...](#)
