**\*\* EXPIRED \*\***

**\*\*REVISED\*\***

**MATERIALS BULLETIN NO. 06-17**

*(FHWA Approved: 4/06/2017)*

**TO: DISTRICT MATERIALS AND RESEARCH ENGINEERS**

**FROM:** Timothy Ruelke P.E., Director, Office of Materials

**COPIES:** Courtney Drummond, Bob Burleson, Nick Finch, Rafiq Darji, Michael Bergin, Donnie Bagwell

**SUBJECT: MATERIALS MANUAL, CHAPTER 9.2, VOLUME II**

Chapter 9.2, Volume II of the Materials Manual, Structural Concrete Production Facilities Guide, has been revised and includes a number of changes for structural concrete producers. One specific change, requested by Industry, is the relaxation of aggregate testing at the production facilities. The requested schedule for testing aggregate has been changed from every 30 days to every 90 days. The basis for this change has been the consistency of the testing data from month to month. The revision continues to provide testing of aggregates but at a reduced frequency.

This provision may be incorporated in current projects let before July 2017, if the production facility requests to use it.

Should you have any questions please contact Mike Bergin, 352-955-6666, or Donnie Bagwell, 352-955-6645.
