

Report Methodology and Contributors

The Proportionate Share Calculation Report was prepared based on extensive input from stakeholders and interested parties, including representatives of the development community, municipal and county governments, and professional transportation engineers and planners. A draft of the report was developed based on initial stakeholder feedback and posted on the Department's website for public review and comment. The Department was also invited to present the draft report findings and observations at statewide meetings and conferences held by the Florida Association of County Engineers and Road Superintendents, Florida Section Institute of Transportation Engineers, the Florida League of Cities, and the Florida Regional Councils Association. The report was revised and finalized based on the comments received on the draft report and other input from stakeholders.

The Department greatly appreciated the input and comments provided by the following individuals and entities to this report:

Dwight Arnold – City of Tallahassee
Nicholas Azzara – Manatee County
Melissa Booker – Volusia County
Janet Bowman – The Nature Conservancy
Lacy Brent – AECOM
