Construction Notification from Counties

Merging of Off-system notices into the FDOT
construction notice program

Jessica Reyes

D4 RCI In-house Consultant

Jessica.reyes@dot.state.fl.us

954-777-4638

Date: 8/29/2016 – 9/1/2016

Background

- The idea is to have a comprehensive and updated database
- An approach to interact with Counties/MPO's/TPO's
- A way to share data

Counties' Processes

Broward County

- Progress updates sent quarterly
- Close out is 4 to 5 months after opened to traffic
- Sent to commissioners first

Palm Beach

- County has coordinated with D4
- County would like to see FDOT data

Martin

- County has a notification form for projects status reports
- All reports are in their data base

Counties' Processes

St Lucie

- Roadway improvements projects which are developer driven and or fully County funded
- County sends notification of complete project to FDOT Construction Office
- For all projects in the Cities we should contact the PTO (Planning Transportation Office)

Indian River

- County is on board for this initiative of providing notifications to FDOT for every completed project
- Updates from the county can be provided every 6 months

Planned Coordination

Palm Beach County

Notification Received	Section ID	Roadway Name	Status	From	BMP	To	EMP	Length (MI)	Type Construction	County Project Number	Resolution No
5/18/2016	93510000	45th Street	Off-System	I-95	0.993	Old Dixie Highway/Greenwood Ave	3.144	2.151	Roadway Improvement	2014608	R2015-0704

2/12/2014	93000138/ 93000050	Intersection	Off-System	Belvedere Road/93000138/5.070	5.070	Haverhill Road/93000050/2.777	5.080	0.010	Intersection Improvement Project	2004516A	R2013-0228

Data Sharing Opportunity

Counties and MPO's have commented on acquiring our data, features such as:

- Sidewalk information/reconciliation
- Bicycle information/reconciliation
- Speed Limit designation
- Level of Service comparison

FDOT offices who may use County's data

- OMD – Multi-Modal Planning
- Planning – TIP/STIP, County Master Plan, Cities Master Plans, LRTPs
- Design – Urban/Rural roadway features

Issues

- RITA
- Create a tracking system
- Monitor tracking system
- Deliverables
 - Timeliness
 - Logging system
 - QA/QC

Further steps with FDOT and agencies

- Coordination with CO
- Coordination with locals
- Begin a tracking system
