

Florida Transportation Plan and Strategic Intermodal System Policy Plan Updates

presented to

Florida Data Symposium

presented by

Dana Reiding, Florida Department of Transportation

John Kaliski, Cambridge Systematics, Inc.

August 19, 2015

Today's Agenda

- **Overview and status of FTP and SIS Policy Plan updates**
- **Interactive session**
- **Report outs and discussion**
- **FTP/SIS schedule and upcoming events**

FLORIDA TRANSPORTATION PLAN VISION ELEMENT

JULY 2015
FloridaTransportationPlan.com

FTP  **SIS**
Florida Transportation Plan Strategic Intermodal System

New Florida Transportation Plan

Anticipated Contents

Vision Element *(summer 2015)*

Trends, uncertainties, themes that will shape future of transportation in Florida (50 years)

Policy Element *(December 2015)*

Goals and objectives to guide FDOT and partners toward the vision (25 years)

Implementation Element *(2016)*

Emphasis areas with key actions (5-25 years)

Where Do We Want to Go?

Over the next 50 years, we want...

Safety and
Security for residents,
visitors, businesses

Transportation solutions that support Florida's global
Economic Competitiveness

Agile, Resilient, and
Quality transportation infrastructure

Transportation solutions that support
Quality Places
to live, learn, work, and play

Efficient and Reliable Mobility
for people and freight

Transportation solutions that enhance
Florida's **Environment** and
Conserve Energy

More Transportation Choices
for people and freight

How Do We Get There?

Potential Implementation Emphasis Areas

- **Innovation**
- **Collaboration**
- **Customer Service**
- **Strategic investments**
- **Research, Data, and Performance Measurement**

Interactive Session

- **7 goal areas and objectives on poster boards**
- **Use post-it notes to record ideas for each goal/objective:**
 - » How should we/can we use data to help us achieve the goals and objectives?
 - » What opportunities exist related to the goals and objectives with respect to data – accessibility, collection, use, collaboration, technology...?

Safety and Security for Residents, Visitors and Businesses

- Prevent transportation-related fatalities and injuries
- Reduce number of crashes on transportation system
- Prevent and mitigate transportation-related security risks
- Provide transportation infrastructure and services to help prepare for, respond to, and recover from emergencies

Agile, Resilient and Quality Transportation Infrastructure

- Meet or exceed standards for infrastructure quality, condition, and performance for all modes
- Optimize functionality and efficiency of existing infrastructure and right of way
- Adapt transportation infrastructure and technologies to meet changing customer needs
- Increase resiliency of infrastructure to risks including extreme weather and climate trends

Efficient and Reliable Mobility for People and Freight

- Reduce delays related to bottlenecks, gaps, and crashes and other incidents for all modes
- Increase reliability of all modes
- Increase customer satisfaction with Florida's transportation system and regulatory processes
- Increase supply chain efficiency
- Increase efficiency and reasonableness of transportation-related regulatory processes

More Transportation Choices for People and Freight

- Increase use of new mobility options and technologies
- Increase share of person trips using public transportation and other alternatives to single occupancy motor vehicles
- Increase number of quality options for visitor travel
- Increase number of quality options for moving freight
- Increase efficiency and convenience of connecting between multiple modes

Transportation Solutions That Support Florida's Global Economic Competitiveness

- Provide transportation infrastructure and services to support job growth in transportation-dependent industries and clusters
- Increase transportation connectivity between Florida's economic centers and regions
- Increase transportation connectivity between Florida and global and national trading partners and visitor origin markets
- Increase number of skilled workers in transportation-related industries.

Transportation Solutions that Support Quality Places to Live, Learn, Work & Play

- Plan and develop transportation systems that reflect regional and community values, visions, and needs
- Increase customer satisfaction with Florida's transportation system
- Provide convenient, efficient accessibility to transportation system for residents and visitors
- Provide transportation solutions that contribute to improved public health

Transportation Solutions that Enhance Florida's Environment & Conserve Energy

- Plan and develop transportation systems in a manner that protects, and where feasible, restores function and character of natural environment
- Decrease transportation-related air quality pollutants and greenhouse gas emissions
- Increase energy efficiency of transportation
- Increase use of transportation fuels and energy sources that are alternatives to traditional fossil fuels

- Increase energy efficiency of transportation
- Increase use of transportation fuels and energy sources that are alternatives to traditional fossil fuels

Discussion

- **What are the major data opportunities?**
- **How can we work together to provide, enhance, and share data as a long-term resource for planners?**
- **What would you like to see in the FTP related to data?**

Review Our Previous Plans

[Florida Transportation Plan](#)

[SIS Strategic Plan](#)

About Us

The Florida Department of Transportation (FDOT) is updating the Florida Transportation Plan (FTP) and the Strategic Intermodal System (SIS) Policy Plan. The FTP defines Florida's future transportation vision and identifies goals, objectives, and strategies to accomplish that vision. The FTP is the statewide long-range transportation plan for all of Florida. The SIS Policy Plan identifies policies for planning and implementing Florida's Strategic Intermodal System, the statewide high-priority network of transportation facilities critical to Florida's economic competitiveness.

Recent News

To guide the update process of the FTP and SIS Plan, FDOT has assembled a Steering Committee. The Steering Committee will provide recommendations to FDOT about the FTP and SIS Policy Plan based on the Committee members' expertise; input from other statewide, regional, and local partners; and supporting technical analysis. The Steering Committee has met twice to discuss the update of the FTP and SIS Policy Plan. [Click here](#) for more information about the [Steering Committee](#). [Click here](#) to review the [materials](#) that were provided to and discussed by the Steering Committee.
