## Legislative Transportation Briefing

The Mission of the Florida Department of Transportation (FDOT) is to provide a safe transportation system that ensures the mobility of people and goods, enhances economic prosperity, and preserves the quality of our environment and communities.

Our  
**MISSION**

*Transportation improvements  
result in tangible benefits.*

*Your*  
**BENEFITS**

#### **JOBS**

\$1 billion invested in transportation projects supports about 28,000 jobs.

#### **ECONOMY**

Over the next five years, planned improvements will grow Florida's Gross State Product (GSP) by an estimated \$11 billion in increased productivity.

#### **RETURN ON INVESTMENT (ROI)**

Every dollar invested in transportation is estimated to result in a return of nearly \$5 in user and economic benefits to Florida's residents and business.

*Transportation investment highlights  
are found statewide.*

*Our*  
**PERFORMANCE**

#### **COMPETITIVENESS**

Transportation investments are prioritized to strengthen and support our economy. Cargo valued at \$83 billion passes through Florida's seaports, 83 million tons of freight travel our railroads, and aviation contributes \$114 billion to our economy every year.

#### **SAFETY**

Fatality and crash rates are decreasing on Florida's highways, protecting our most valuable asset - our people. Safety belt usage is now at 88% - an all time high. A new statewide initiative to improve safety for pedestrians and cyclists is now underway.

#### **PRESERVATION**

Maintenance, pavement, and bridge conditions are meeting or exceeding performance targets. FDOT has met or exceeded its maintenance standards since 1994.

*Transportation projects require  
multi-year funding.*

*Our*  
**FUNDING**

#### **CASH FLOW VS. COMMITMENTS**

FDOT currently has over \$7 billion of secured funding commitments to transportation contractors and partners with a projected cash balance between \$200-to-\$250 million.

#### **REVENUE SHORTFALLS**

By the end of the decade, FDOT expects to lose \$5 billion in gas tax revenue due to more efficient vehicles using less fuel.
