Florida's Turnpike Enterprise

Florida's Turnpike Enterprise, part of the Florida Department of Transportation, owns a 483-mile system of limited access toll highways. The Turnpike Mainline/SR 91 is a 320-mile, multi-lane facility extending from Florida City in Miami-Dade County northward to Wildwood in Sumter County.

IN ADDITION TO THE TURNPIKE MAINLINE, THE TURNPIKE SYSTEM INCLUDES:

SOUTH FLORIDA

- 23-mile Sawgrass Expressway/Toll 869

CENTRAL FLORIDA

- 18-mile Seminole Expressway/Toll 417
- 6-mile Southern Connector Extension/Toll 417
- 11-mile Western Beltway/Toll 429
- 22-mile Beachline East/Toll 528

WEST CENTRAL FLORIDA

- 15-mile Veterans Expressway/Toll 589
- 42-mile Suncoast Parkway/Toll 589
- 25-mile Polk Parkway/Toll 570
- 1-mile I-4 Connector

TURNPIKE IS WITHIN

- 5 of 7 FDOT Districts
- 52 of 120 House Districts
- 23 of 40 Senate Districts

TURNPIKE FUNDING

In fiscal year (FY) 2016, Florida's Turnpike Enterprise will invest \$1.24 Billion in Florida's Transportation System. The eight major projects shown on the reverse-side map, the Florida's Turnpike Enterprise Tentative 5-Year Work Program for FY 2017 through 2021 and total \$881 Million.

- Florida's Turnpike System is financed with toll and concession revenues rather than gas taxes.
- Turnpike revenues are used to:
 - Repay principal and interest on outstanding revenue bonds
 - Pay for ongoing operations and maintenance costs
 - Pay for preservation (e.g. resurfacing) needs
 - Pay for minor capital improvements
- Major capital improvements with an asset life of 30 years or greater are typically bond and cash funded.
