ESTIMATES BULLETIN 08-01

DATE: April 29, 2008

TO: District Estimates Coordinators, District Design Engineers

FROM: Phillip "Greg" Davis, P.E., State Estimates Engineer 

COPIES TO: Lora Hollingsworth, Ananth Prasad, Brian Blanchard, Duane Brautigam, David O'Hagan

SUBJECT: ITS (Intelligent Transportation System) Conduit and Electronic Locate System

ISSUE BACKGROUND: The current specification currently includes the cost for locate system electronic equipment (transmitter, receiver, and markers) in the cost of the conduit. However, the Department does not always need the additional equipment, if it is available in the district.

The specifications have been updated to provide separate payment for the electronic equipment, as needed. Separate pay items are now available for the electronic equipment. Note that the pay item for conduit was also updated to coordinate with the new specification.

As a reminder, the ITS specifications and pay items should only be used with ITS plans.

IMPLEMENTATION:

Update Pay Items: Effective with the July 2008 letting, ensure that the plans are updated to reflect the correct use of each pay item.
