

5230201, Patterned/Textured Pavement – Qualified Products List
Response to Comments From Industry Review

Rudy Powell

Comment:

Why is #2 needed? It seems that the first sentence of #3 is a repeat of #2.

Comment:

I thought we were on the verge of making some other key changes, including dropping the requirement for test decks. Why not consider waiting a little longer to process this change until a decision is reached on the other changes under consideration?

Response:

We will need to process those changes separately.
