

EXPECTED IMPLEMENTATION JANUARY 2014

006 CONTROL OF MATERIALS. (REV 5-22-13) (FA 7-3-13) (1-14)

SUBARTICLE 006-1.3.1.1 (Pages 51 – 52) is deleted and the following substituted:

6-1.3.1.1 Qualified Products List: The Product Evaluation Section in the State Specifications and Estimates Office maintains the QPL. This list provides assurance to Contractors, consultants, designers, and Department personnel that specific products and materials are approved for use on Department facilities. The Department will limit the Contractor's use of products and materials that require use of QPL items to those listed on the QPL effective at the time of placement.

Manufacturers seeking to have a product evaluated for the QPL must submit a product evaluation application, available on the Department's website at the following URL:

<http://www.dot.state.fl.us/specificationsoffice/ProductEvaluation/QPL/SubmittalProcess.shtm> with supporting documentation as defined and detailed by the applicable Specifications and Design Standards. All required test reports must be conducted by an independent laboratory or other independent testing facility. All required drawings and calculations must be signed and sealed by a Professional Engineer licensed in the State of Florida. The application must be signed by a legally responsible person from the producer. Producer name and material designation (product name, style number, etc.) provided on the application shall be the same as identified on product packaging and labels.

Products that have successfully completed the Department's evaluation process are eligible for inclusion on the QPL. Manufacturer's of QPL approved products are required to resubmit the product for QPL approval when any modifications or alterations are made to an approved product This includes, but is not limited to, design, materials, fabrication methods or operational modifications. Notification of modifications or alterations must be submitted along with supporting documents for review and approval by the Department. The Department will consider any marked variations from original test values for a product, failure to notify the Department of any modifications or alterations, or any evidence of inadequate performance of a product as sufficient evidence that the properties of the product have changed, and the Department may remove the product from the QPL.

Manufacturers must re-qualify QPL products for approval on or before the product's original approval anniversary date. The QPL requalification schedule and criteria are available on the Department's website. The Department will consider failure to perform these actions as sufficient evidence that the properties of the product have changed, and the Department will remove the product from the QPL.
