

EXPECTED IMPLEMENTATION JANUARY 2014

785 INTELLIGENT TRANSPORTATION SYSTEMS - INFRASTRUCTURE. (REV 3-5-13) (FA 5-16-13) (1-14)

SUBARTICLE 785-3.2.1 (Page 927) deleted and the following substituted:

785-3.2.1 Pole: Use a concrete or steel pole in accordance with Design Standards, Index No. 18111 or 18113.

Obtain steel poles from a fabrication facility that is currently on the Department's list of Metal Producers with an Accepted Quality Control Program. Producers seeking inclusion on the list shall meet the requirements of 105-3.

For concrete poles, use concrete meeting the requirements of Section 346 and construct in accordance with Section 450. Obtain concrete poles from a manufacturing plant that is currently on the Department's list of Precast Prestressed Concrete Producers with an Accepted Quality Control Program. Producers seeking inclusion on the list shall meet the requirements of 105-3. Assume responsibility for performance of all quality control testing and inspection required by Sections 346 and 450; however the PCI personnel and plant certifications are not required.

Ensure that the pole-top tenon is rotatable.
