Re: State Specifications and Estimates Office
Section **001**
Proposed Specification: **0010200 Definitions and Terms.**

Dear Mr. Nguyen:

We are submitting, for your approval, two copies of the above referenced Supplemental Specification.

These changes were proposed by Allen El-Urfali of the State Traffic Engineering and Operations Office to remove the Minimum Specifications for Traffic Control Signals and Devices (MSTCSD) from the Standard Specifications for Road and Bridge Construction (SSRBC). This activity is part of a planned effort to move material requirements from the MSTCSD to the SSRBC.

Please review and transmit your comments, if any, within two weeks. Comments should be sent via email to SP965DS or daniel.scheer@dot.state.fl.us.

If you have any questions relating to this specification change, please call me at 414-4130.

Sincerely,

Signature on file

Daniel Scheer, P.E.
State Specifications Engineer
