Comment: (5-11-14)

8.1.5.3.2.1 (17): Change the word “day” to “date”. (Highlighted below)

(17) Ensure the Plant notifies the verification inspector at least two days in advance of the planned starting day of the prestressing strand tensioning/detensioning, concrete placement, or shipment operations of the products to the project sites. The Plants shall notify the Department immediately of any changes to the planned starting dates of these operations. The communication related to the starting dates of these major activities can be provided during the weekly meetings, by emails, or by phone calls.

Response: We agree with the suggested comment and will submit the modified version of the document. Change made.
